Product Parameter (Specification) of Portable Power Station for Outdoor Camping

MODEL	Product Specifications	
QJT102	Input	Adapter: DC15V/2A Solar Panel Charging: 35-40W, 18-22V
	USB Output	1 X USB 5V/2.1A Max 1 X TYPE-C 5-9V/2A Qualcomm Quick Charge 3.0, PD 2.0 1 x USB 5-9V/2A Qualcomm Quick Charge 3.0
	DC Output	2 x 5.5 x 2.1mm 9-12.5V/10A (15A Max)
	Capacity	42000mAh (3S7P 3.7V) 155Wh
	AC Output	100W (Peak: 150W)
	Bulb Type	10W Ultra bright LED light With SOS/ Blink mode
	Power Indicator	Led
	Operation temperature	-10°C-40°C
	Lifecycle	>500 times
	Dimensions (L*W*H)	260*118*125MM
	Weight	1.8KG

Product Feature And Application

QiJun Portable Power Station for Outdoor Camping was born from the idea of getting out

and staying outside. We provide power for every experience of the outdoors. Whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard- QiJun powers you.

Product Details

Portable Power Station for Outdoor Camping is a rechargeable battery-powered generator. Equipped with AC outlet, DC carport and USB charging ports, they can keep all your gear charged, from smartphones, laptops, to CPAP and appliances, like mini coolers, electric grill and coffee maker, etc.

1.BMS

Our Battery Management System is built to govern the products' safety structure. With multiple solutions for over current protection, short current protection, over-discharge protection, overcharge protection, over voltage protection, and thermal protection.

2.Safety

This system will monitor each individual cell and battery pack health, which shields the battery safety level and the system, improving the battery life. It is even aligned with the highest battery industrial standard - matching quality with all the electric cars.
