

Solar Panel 200W

We'll outline some of the best solar panel 200w available today, particularly for use with portable solar generators for outdoor activities or emergency power. QiJun is a professional manufacturer and supplier of solar panel 200w Intenergy Portable and Foldable Monocrystalline panels solar energy in China. We have been specialized in this area for many years , let us help you pick the right solar panel system for your

home.

Product Description

This solar panel 200w and foldable solar panel with Adjustable kickstand and storage bag . The solar panel 200w is made of monocrystalline , are made up of dozens of individual cells called photovoltaic cells (or PV cells or solar cells), being easy to install and using, keeping your electronics charged simple.

Product Parameter (Specification) of solar panel 200w

MODEL	Product Specifications	
QJSFZD-200B	Peak power Pmax:	200Wp
	Working voltage Vmp:	18V
	Working current Imp:	11.11A
	Open circuit voltage Voc:	21.6V
	Short circuit current Isc:	12.22A
	Cell:	Monocrystalline 156
	Output connector::	PV1-F1*4mm2 Cable&MC4
	Operation temperature	-10℃-40℃
	Folding size::	674*403*45mm
	Expanded size:	1884*674*5mm
	NetWeight	6.2kg

Product Feature And Application

High Efficiency solar panel 200w, whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard-QiJun powers you.solar power system installations result in a clean, renewable energy source that requires minimal maintenance with savings that could pay back the initial investment in just a few years!

Product Details

At its most basic, a solar panel is simply a device that absorbs the rays of the sun and turns that energy into usable electricity. Most residential and solar panel 200w work using photovoltaic solar cells made of silicon that send that energy through an MPPT charge controller to be stored in lithium-ion batteries or lead-acid batteries.

expand your power

The Best Solar Panels for Portable Solar Generators

Monocrystalline solar panel 200w tend to be sleek and are the most efficient solar panels, but they are also the most expensive.
