

Solar Panel Set

We'll outline some of the best solar panel set available today, particularly for use with portable solar generators for outdoor activities or emergency power. QiJun is a professional manufacturer and supplier of solar panel set Intenergy Portable and Foldable Monocrystalline panels solar energy in China. We have been specialized in this area for many years , let us help you pick the right solar panel system for your

home.

Product Description

This solar panel set and foldable solar panel with Adjustable kickstand and storage bag . The solar panel set is made of monocrystalline , are made up of dozens of individual cells called photovoltaic cells (or PV cells or solar cells), being easy to install and using, keeping your electronics charged simple.

Product Parameter (Specification) of solar panel set

MODEL	Product Specifications	
QJSFZD-60B	Peak power Pmax:	60Wp
	Working voltage Vmp:	18V
	Working current Imp:	3.33A
	Open circuit voltage Voc:	21V
	Short circuit current Isc:	3.67A
	Cell:	Monocrystalline 156
	Output connector::	DC5.5*2.1、 USB
	Operation temperature	-10℃-40℃
	Folding size::	405*350*40mm
	Expanded size:	1250*405*5mm
	NetWeight	2.55Kg

Product Feature And Application

High Efficiency solar panel set , whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard-QiJun powers you.solar power system installations result in a clean, renewable energy source that requires minimal maintenance with savings that could pay back the initial investment in just a few years!

4.Product Details

At its most basic, a solar panel is simply a device that absorbs the rays of the sun and turns that energy into usable electricity. Most residential and solar panel set work using photovoltaic solar cells made of silicon that send that energy through an MPPT charge controller to be stored in lithium-ion batteries or lead-acid batteries.

The Best Solar Panels for Portable Solar Generators

Monocrystalline solar panel set tend to be sleek and are the most efficient solar panels, but they are also the most expensive.
