

Solar Panels 150 Watts

QiJun has been a trusted solar panel retailer since 2015 with low prices on top quality of our own QiJun solar panels. If you want to solar panels to operate during a power outage, you need to pair them with a solar battery. solar panels 150 watts are a proven and reliable way to produce clean electricity where it's needed – on a home, RV, boat, farm, or anywhere else that receives at least moderate sunlight.

Product Description

This solar panels 150 watts and foldable solar panel with Adjustable kickstand and storage bag. The solar panels 150 watts is made of monocrystalline, are made up of dozens of individual cells called photovoltaic cells (or PV cells or solar cells), being easy to install and using, keeping your electronics charged simple.

Product Parameter (Specification) of solar panels 150 watts

MODEL	Product Specifications	
QJSFZD-150B	Peak power Pmax:	150Wp
	Working voltage Vmp:	18V
	Working current Imp:	8.33A
	Open circuit voltage Voc:	21.6V
	Short circuit current Isc:	9.17A
	Cell:	Monocrystalline 156
	Output connector::	PV1-F1*4mm2 cable&MC4
	Operation temperature	-10℃-40℃
	Folding size::	674*403*40mm
	Expanded size:	1460*674*5mm
	NetWeight	5.1KG

Product Feature And Application

High Efficiency solar panels 150 watts, whether you are camping, tailgating at the game, backpacking, rafting the Colorado River, climbing Mount Everest, or just hanging out in the backyard-QiJun powers you.

solar power system installations result in a clean, renewable energy source that requires minimal maintenance with savings that could pay back the initial investment in just a few years!

Product Details

At its most basic, a solar panel is simply a device that absorbs the rays of the sun and turns that energy into usable electricity. Most residential and solar panels 150 watts work using photovoltaic solar cells made of silicon that send that energy through an MPPT charge controller to be stored in lithium-ion batteries or lead-acid batteries.

expand your power

The Best Solar Panels for Portable Solar Generators

Monocrystalline solar panels 150 watts tend to be sleek and are the most efficient solar panels, but they are also the most expensive.
