

Eps Block Machine

Ningbo PinSheng Machinery Manufacturer ("PINGSHENG" in short) was established in 2010. With professional R&D team, PINSHENG Machinery has become one of the largest and outstanding manufacturers of Pinsheng® EPS Block Machine, EPS Mould, EPP machine, ETPU machine and other related machines. Now PINSHENG wins very good reputation, its domestic market service over 8500 plants and exported to

more than 60 countries. If you are interested in EPS Block Machine, please contact us, we will give you the best.

Product Description

"Quality first, Honesty as base, Sincere service and mutual profit" is our idea, in order to develop continuously and pursue the excellence for Customized Cheap Price Pinsheng® Eps Block Machine, At present, corporation name has much more than 4000 kinds of products and gained very good status and big shares on current market domestic and abroad.

Customized Cheap Price Eps Block Machine, So that you can utilize the resource from the expanding info in international trade, we welcome shoppers from everywhere on-line and offline. In spite of the good quality solutions we present, effective and satisfying consultation service is supplied by our specialist after-sale service team. Product lists and comprehensive parameters and any other info will be sent for you timely for your inquiries. So make sure you make contact with us by sending us emails or call us if you have any questions about our corporation. You may also get our address info from our web page and come to our company to get a field survey of our merchandise. We have been confident that we are intending to share mutual achievement and create strong co-operation relations with our companions in this marketplace. We're searching forward for your inquiries.

Our PSBM200-800VC/AC EPS Block Machine is a full automatic equipment to produce EPS block, which is efficient and has low energy consumption.

Model: PSBM200-800VC/AC

Brand: PINSHENG

Product Parameter (Specification)

Our Pinsheng® EPS Block Machine provides all machine process, including filling, expanding, sieving, de-lumping and conveying work automatically.

1.Flexible customized size	The size of EPS Block Machine can be adjustable .Both in length or width of machine by rotation code to control screw cylinder.By setting the block mold size using the touch screen,the machine will adjust the mould size automatically.The usage method is simple.
2.Machine structure	The mold of EPS Block Machine is welded by strong rectangle tube and steel plate which make high strength to keep more safety of the machine. All block mold frames have heat-treatment to release welding stress,so that the frames would not deformed. After heating treatment,all mold frames are processed by sand blasting treatment to keep the rust away,then under coat and finishing coat are greatly improved anticorrosion performance and long life; Adopts three Germany gauges and safety valve for multi-safety protection.The machine will be tested by water pressure and steam(many steps),ensure the machine more safety and stable.
3.Steam system	The EPS Block Machine has 3 ball valves ,comparing one big steam valve control system, it can save at least 20% steam,with ISO-standrad butterfly valves ,greatly improve stability and long life.
4.Control system	The EPS Block Machine adopts PLC(Mitsubishi) and touch screen(Schneider) for an easy operation; Equipped material level sensor to control the filling.The block cooling is controlled by foam pressure sensor.The whole procedure for filling,heating,cooling will be controlled automatically by PLC.

Product Feature And Application

Pinsheng® EPS Block Machine is applicable to produce all kinds of product like EPS vegetable boxes,fishing boxes,ice cream boxes,because of its light and cost-effective advantages, EPS products are widely used in every area of our daily lives.
