

Eps Block Making Machine

Ningbo PinSheng Machinery Manufacturer ("PINGSHENG" in short) was established in 2010. With professional R&D team, PINSHENG Machinery has become one of the largest and outstanding manufacturers of Pinsheng® EPS Block Making Machine, EPS Mould, EPP machine, ETPU machine and other related machines. Now PINSHENG wins very good reputation, its domestic market service over 8500

plants and exported to more than 60 countries. Find high quality EPS Block Making Machine for sale? we will be your best Choice!

Product Description

We always follow the principle "Quality Very first, Prestige Supreme". We have been fully committed to delivering our customers with competitively priced high-quality products and solutions, prompt delivery and experienced services for Pinsheng® Top Grade Low Price Eps Block Making Machine. We guaranteed high-quality, if clients were not pleased together with the products' good quality, you can return inside of 7 days with their original states.

Top Grade Low Price Eps Block Making Machine, we always keep our credit and mutual benefit to our client, insist our high quality service to moving our clients. always welcome the our friends and clients to come and visit our company and guide our business, if you are interested in our goods, you can also submit your purchase information online, and we'll contact you immediately, we keep our highly sincere cooperation and wish everything in your side are all well.

Our PSBM200-800VC/AC EPS Block Making Machine is a full automatic equipment to produce EPS block, which is efficient and has low energy consumption.

Model: PSBM200-800VC/AC

Brand: PINSHENG

Product Parameter (Specification)

Our Pinsheng® EPS Block Making Machine provides all machine process, including filling, expanding, sieving, de-lumping and conveying work automatically.

1.Flexible customized size	The size of EPS Block Making Machine can be adjustable. Both in length or width of machine by rotation code to control screw cylinder. By setting the block mold size using the touch screen, the machine will adjust the mould size automatically. The usage method is simple.
2.Machine	The mold of EPS Block Making Machine is welded by strong rectangle tube

structure	<p>and steel plate which make high strength to keep more safety of the machine. All block mold frames have heat-treatment to release welding stress,so that the frames would not deformed.</p> <p>After heating treatment,all mold frames are processed by sand blasting treatment to keep the rust away,then under coat and finishing coat are greatly improved anticorrosion performance and long life;</p> <p>Adopts three Germany gauges and safety valve for multi-safety protection.The machine will be tested by water pressure and steam(many steps),ensure the machine more safety and stable.</p>
3.Steam system	<p>The EPS Block Making Machine has 3 ball valves ,comparing one big steam valve control system, it can save at least 20% steam,with ISO-standrad butterfly valves ,greatly improve stability and long life.</p>
4.Control system	<p>The EPS Block Making Machine adopts PLC(Mitsubishi) and touch screen(Schneider) for an easy operation;</p> <p>Equipped material level sensor to control the filling.The block cooling is controlled by foam pressure sensor.The whole procedure for filling,heating,cooling will be controlled automatically by PLC.</p>

Product Feature And Application

Our Pinsheng® EPS Block Making Machine is applicable to produce Styrofoam product. There are all kinds of Styrofoam product in our daily life.EPS is widely used and can be seen in all areas of life, including fishing boxes, packaging,Building decoration strips, roof etc.
