

EPS Moulding Machine

Ningbo PinSheng Machinery produce all kinds of Pinsheng® EPS Moulding Machine, with more than 10 years industry experience, we are able to offer not only good quality machine, but also competitive price. We are expecting to discuss with you for your further demand, for every request from our customers, we will give an answer within 24 hours!

Product Description

We try for excellence, company the customers", hopes to be the best cooperation workforce and dominator enterprise for personnel, suppliers and clients, realizes value share and steady marketing for top grade fast delivery Pinsheng® EPS Moulding Machine, The concept of our corporation is "Sincerity, Speed, Services, and Satisfaction". We're going to follow this concept and get more and additional customers' fulfillment. top grade fast delivery Pinsheng® EPS Moulding Machine, At Existing, our solutions have been exported to more than sixty countries and different regions, such as Southeast Asia, America, Africa, Eastern Europe, Russia, Canada etc. We sincerely hope to establish wide contact with all potential customers both in China and the rest part of the world.

We are providing qualify EPS moulding machine to worldwide clients, our machines are loved by customers because of their accuracy and high production efficiency.

Model:PSSM1412

Brand: PinSheng

Product Parameter (Specification)

1.Mechanical structure	All the steel plate of our EPS moulding machine is welded with thick steel plate , all the formwork is tempered at high temperature and shot peening at high pressure . It has high strength and high surface hardness. All templates are processed by CNC to ensure accuracy
2.Steam System	Our EPS moulding machine provides long range control system reducing valve for stabilizing flow, with control accuracy ± 0.2 Bar.
3.Electrical control	Our EPS moulding machine adopts all worldwide well-known components, such as Taita touch screen,Low-voltage electrical appliances are with the brand Schneider. Through steam pressure,main steam pressure,demoulding,air cooling,and pressurized feeding all adopt remote pressure regulating system,valves open and close according to the set pressure ratio, it is very easy to

	operate.
4.Hydraulic System	A digital encoder of the EPS Moulding machine is used to control the stroke distance of mold opening and clamping,it can keep the safety protection function of the mechanical,hydraulic and electrical tripe interlocking so as to meet the safety standard.

Product Feature And Application

Pinsheng® EPS moulding machine is used to produce all kinds of EPS product,as long as equipped with suitable molds, our machines can produce the products you want

Deliver,Shipping And Serving

FAQ

1.Where is your factory located?

We have 2 production plant, one plant locates in Hangzhou which professionally producing EPS/EPP/ETPU machine. Another factory locates in Jiangsu Provide which producing EPS/EPP/ETPU mould. Both two factories are pretty close to the Shanghai port for easiest transportation.

2.Do you have detailed and professional installation manual?

We will provide very detailed installation manuals and videos, and the service until you are satisfied
