

Polystyrene Shape Moulding Machine

Ningbo PinSheng Machinery Co.,Ltd is one of the Professional and leading EPS Machine manufacturers in East of China, we produce all kinds of EPS Pre-expander,Pinsheng® Polystyrene Shape Moulding Machine, EPS Cutting Machine, EPS mould, EPP Machine, ETPU Machine. These machines are versatile and easy to operate, welcome to contact with us for further information!

Product Description

We emphasize improvement and introduce new goods into the market each year for Pinsheng® Wholesale big discount Polystyrene Shape Moulding Machine, Honesty is our principle, expert operation is our perform, support is our goal, and customers' fulfillment is our future!

Wholesale big discount Polystyrene Shape Moulding Machine, We put the product quality and customer's benefits to the first place. Our experienced salesmen supply prompt and efficient service. Quality control group make sure the best quality. We believe quality comes from detail. If you have demand, let us work together to get success.

We are providing qualify Polystyrene Shape Moulding Machine to worldwide clients. Our machine has very stable performance, not only is simple to operate, but also can achieve a low rejection rate

Model: PSSM1412

Brand: PinSheng

Product Parameter (Specification)

1.Mechanical structure	Our Polystyrene Shape Moulding Machine apots good quality steel plate,all the formwork is tempered at high temperature and shot peening at high pressure . It has high strength and high surface hardness. All templates are processed by CNC to ensure accuracy
2.Steam System	Our Polystyrene Shape Moulding Machine provides long range control system reducing valve for stabilizing flow, with control accuracy±0.2 Bar.
3.Electrical control	Our Polystyrene Shape Moulding Machine adopts all worldwide well-known components, such as Taita touch screen,Low-voltage electrical appliances are with the brand Schneider. Through steam pressure,main steam pressure,demoulding,air cooling,and pressurized feeding all adopt remote pressure regulating system,valves

	open and close according to the set pressure ratio, it is very easy to operate.
4.Hydraulic System	A digital encoder of the Polystyrene Shape Moulding Machine is used to control the stroke distance of mold opening and clamping,it can keep the safety protection function of the mechanical,hydraulic and electrical tripe interlocking so as to meet the safety standard.

Product Feature And Application

Pinsheng® Polystyrene Shape Moulding Machine is applicable to produce EPS products. EPS products is widely used and can be seen in all areas of life, it is applicable to produce vegetable boxes,fruitful boxes,fishing boxes,house hold appliance packaging,etc.

Deliver,Shipping And Serving

FAQ

1. Where is your factory located?

We have 2 production plant, one plant locates in Hangzhou which professionally producing EPS/EPP/ETPU machine. Another factory locates in Jiangsu Provide which producing EPS/EPP/ETPU mould. Both two factories are pretty close to the Shanghai port for easiest transportation.

2. Do you have detailed and professional installation manual?

We will provide very detailed installation manuals and videos, and the service until you are satisfied

3. Are you a trading company or a manufacturer?

We are manufacturer.

4. Q: How long is your delivery time of Polystyrene Shape Moulding Machine?

Normally delivery time is 30~45 days.

5. Q: How many years have your company made this kind of equipment?

More than 10 years.

6. Q: Can I only buy some spare parts from you?

Yes, we also provide all kinds of spare parts that relatives to our machine.

7. How do you pack the equipment Polystyrene Shape Moulding Machine?

We will strengthen and protect the equipment to ensure that they will not be damaged during transportation.

8. Q: Can you send your staff to install the equipment for us?

Under normal conditions, it is possible. Now it is an epidemic situation. We will try our best

to assist in case we cannot send technician in time. We will also conduct video connections with guests to teach them to install them in place.

9.Q:Can you can design the equipment according to our size?

Yes, it is acceptable

10.Q:How many production lines in your factory?

We have total 10 production line.
