

Styrofoam Moulding Machine

Ningbo PinSheng Machinery is one of the Professional EPS Machine manufacturers in China, our plants locations are close to biggest ports of China:Ningbo and Shanghai. It is very convenient for transportation and save the cost.We strongly recommend our Pinsheng® Styrofoam Moulding Machine to you, for any further demand, welcome to contact with us freely.

Product Description

We try for excellence, service the customers", hopes to be the most effective cooperation workforce and dominator company for staff, suppliers and shoppers, realizes price share and ongoing marketing for Top Grade Low price Styrofoam Moulding Machine, Welcome any within your inquiries and concerns for our products and solutions, we glance ahead to setting up a long-term enterprise partnership along with you within the close to potential. get hold of us today.

Top Grade Low priceStyrofoam Moulding Machine, Many kinds of different goods are available for you to choose, you can do one-stop shopping here. And customized orders are acceptable. Real business is to get win-win situation, if possible, we would like to provide more support for customers. Welcome all nice buyers communicate details of products with us!!

Our Pinsheng® Styrofoam Moulding Machine has below advantage: high production efficiency, low energy consumption, good foam density and quality.

Model:PSSM1412 Brand: PinSheng

Product Parameter (Specification)

	Our Styrofoam Moulding Machine apots good quality steel plate, all the
1.Mechanical	formwork is tempered at high temperature and shot peening at high
structure	pressure. It has high strength and high surface hardness. All templates
	are processed by CNC to ensure accuracy
2.Steam	Our Styrofoam Moulding Machine provides long range control system
System	reducing valve for stabilizing flow, with control accuracy±0.2 Bar.
3.Electrical control	Our Styrofoam Moulding Machine adopts all worldwide well-known
	components, such as Taita touch screen,Low-voltage electrical appliances
	are with the brand Schneider.

	Through steam pressure, main steam pressure, demoulding, air cooling, and pressurized feeding all adopt remote pressure regulating system, valves
	open and close according to the set pressure ratio, it is very easy to
	operate.
	A digital encoder of the Styrofoam Moulding Machine is used to control the
4.Hydraulic	stroke distance of mold opening and clamping, it can keep the safety
System	protection function of the mechanical, hydraulic and electrical tripe
	interlocking so as to meet the safety standard.

Product Feature And Application

Pinsheng® Styrofoam Moulding Machine is purchased by all kinds of EPS foam factory, with such machine, customers could produce wide range of EPS product which is frequently used in our daily life.

Deliver, Shipping And Serving

FAQ

1.Where is your factory located?

We have 2 production plant, one plant locates in Hangzhou which professionally producing EPS/EPP/ETPU machine. Another factory locates in Jiangsu Provide which producing EPS/EPP/ETPU mould. Both two factories are pretty close to the Shanghai port for easiest transportation.
