

## Chain Block 5 Ton

Chain Block 5 Ton is also called fairy gourd, jinbuluo, hand chain hoist. Chain Block 5 Ton is a kind of manual hoisting machine that is simple to use and easy to carry, also called "chain hoist" or "reverse chain". Chain Block 5 Ton is suitable for short-distance lifting of small equipment and goods, and the lifting capacity is generally no more than 10t. Chain Block 5 Ton has the characteristics of compact structure and small hand pull force.

### 1、 Introduction of the Chain Block 5 Ton

There are many applicable scenarios and industries for Chain Block 5 Ton , including factory workshops, mining sites, agricultural operations, power engineering, building construction, cargo lifting, vehicle loading and unloading, etc. The main feature is that it can be used in the open air or in an environment without power supply. Operation.

In addition to being used alone, Chain Block 5 Ton can also be used in combination with various types of monorail cranes to form a hand-drawn transport trolley. Chain Block 5 Ton runs on single-girder bridge cranes, cantilever cranes, and monorail tracks to move left and right to lift and move goods.

### 2、 Product Specification of the Chain Block 5 Ton

Model	HS-VN 1/2	HS-VN 1	HS-VN11/2	HS-VN2	HS-VN3	HS-VN5	HS-VN10	HS-VN20
Capacity(T)	0.5	1	1.5	2	3	5	10	20
Standard lift(T)	2.5	2.5	2.5	2.5	3	3	3	3
Running test load (T)	7.5	15	22.5	30	45	77	150	300
Min,distance between hooks (mm)	270	317	399	414	465	636	798	890
Effort required to lift a max load(N)	231	309	320	360	340	414	414	828

No.of load chain fall lines	1	1	1	1	2	2	4	8
Diameter of load chain	6	6	8	8	8	10	10	10

### 3.Chain Block 5 Ton Feature And Application

There are many applicable scenarios and industries for Chain Block 5 Ton, including factory workshops, mining sites, agricultural operations, power engineering, building construction, cargo lifting, vehicle loading and unloading, etc. The main feature is that it can be used in the open air or in an environment without power supply Operation.

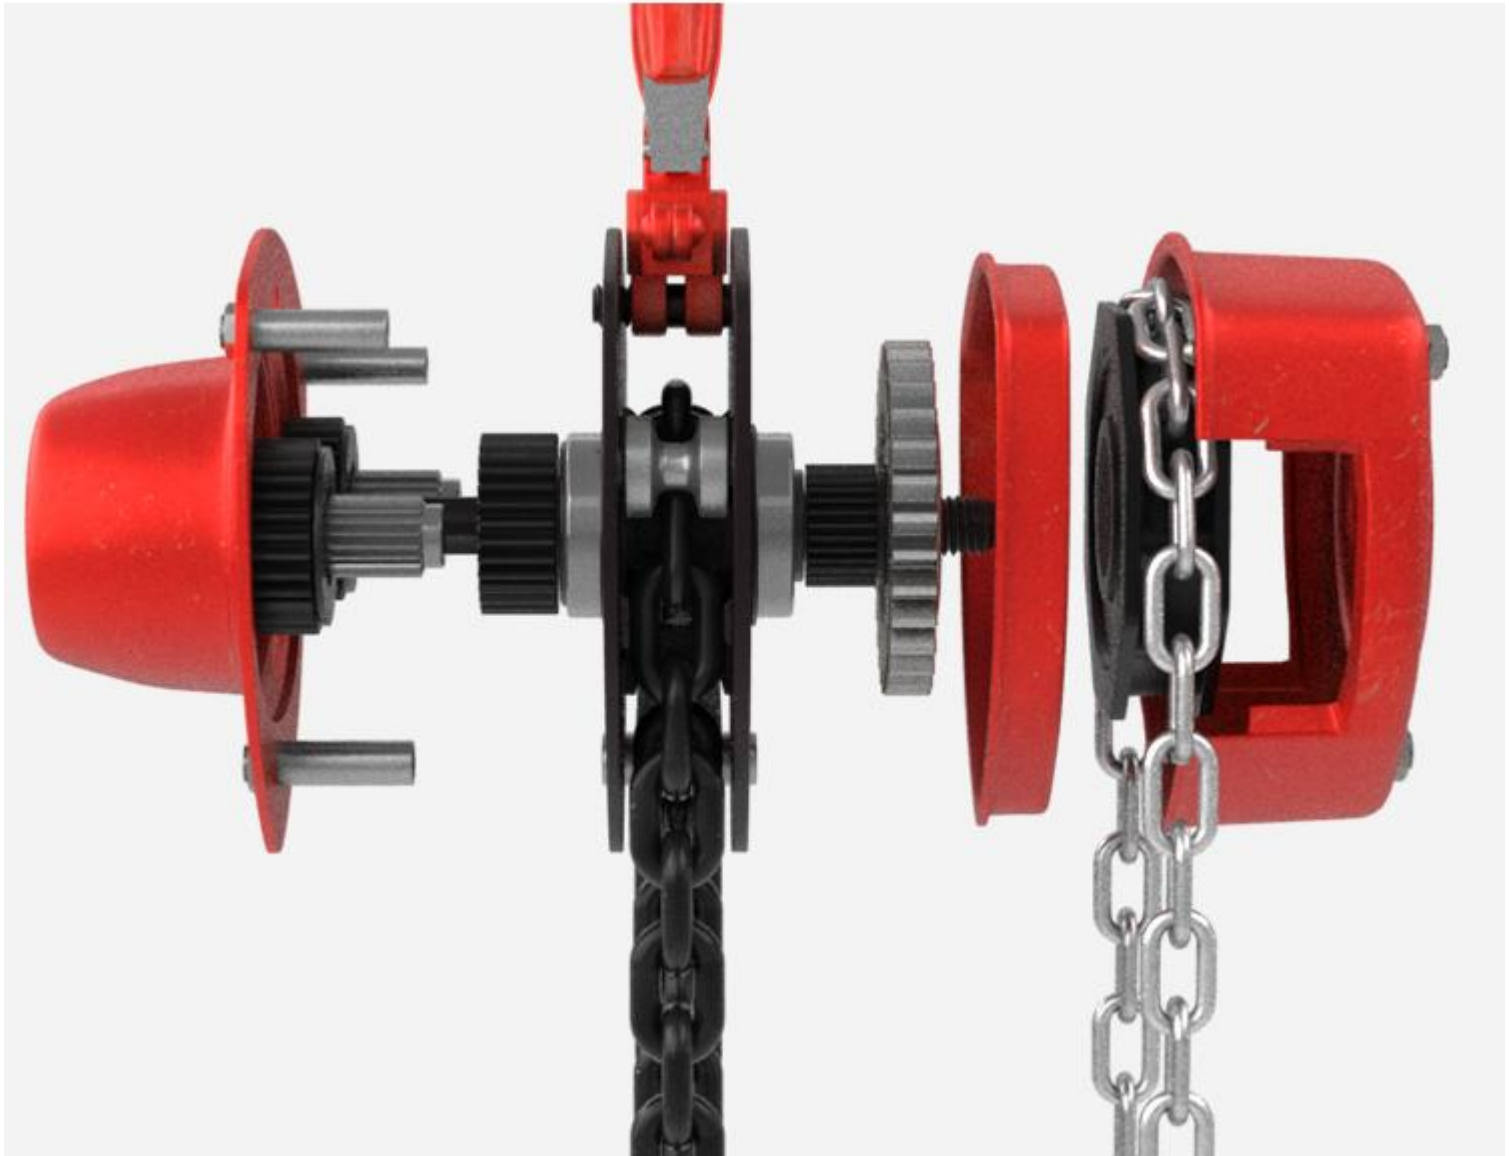

There are many types of Chain Block 5 Ton In addition to the normal environment that conventional chain hoists can handle, such as special scenarios: no sparks, flammable and explosive scenes are allowed, then explosion-proof Chain Block 5 Ton should be used, which can be widely used For potential fire hazards and explosions in petroleum, petrochemicals, petrol stations, oil depots, gas production, chemical industry, military industry, electric power, mining, electronics, railways, etc. In a dangerous environment. During the operation, the friction and collision of products will not produce mechanical sparks, which can effectively prevent fire accidents and ensure the safety of property and personnel.

### 4. Chain Block 5 Ton Details

Chain Block 5 Ton Manganese steel hook with safety buckle to prevent items from falling during work

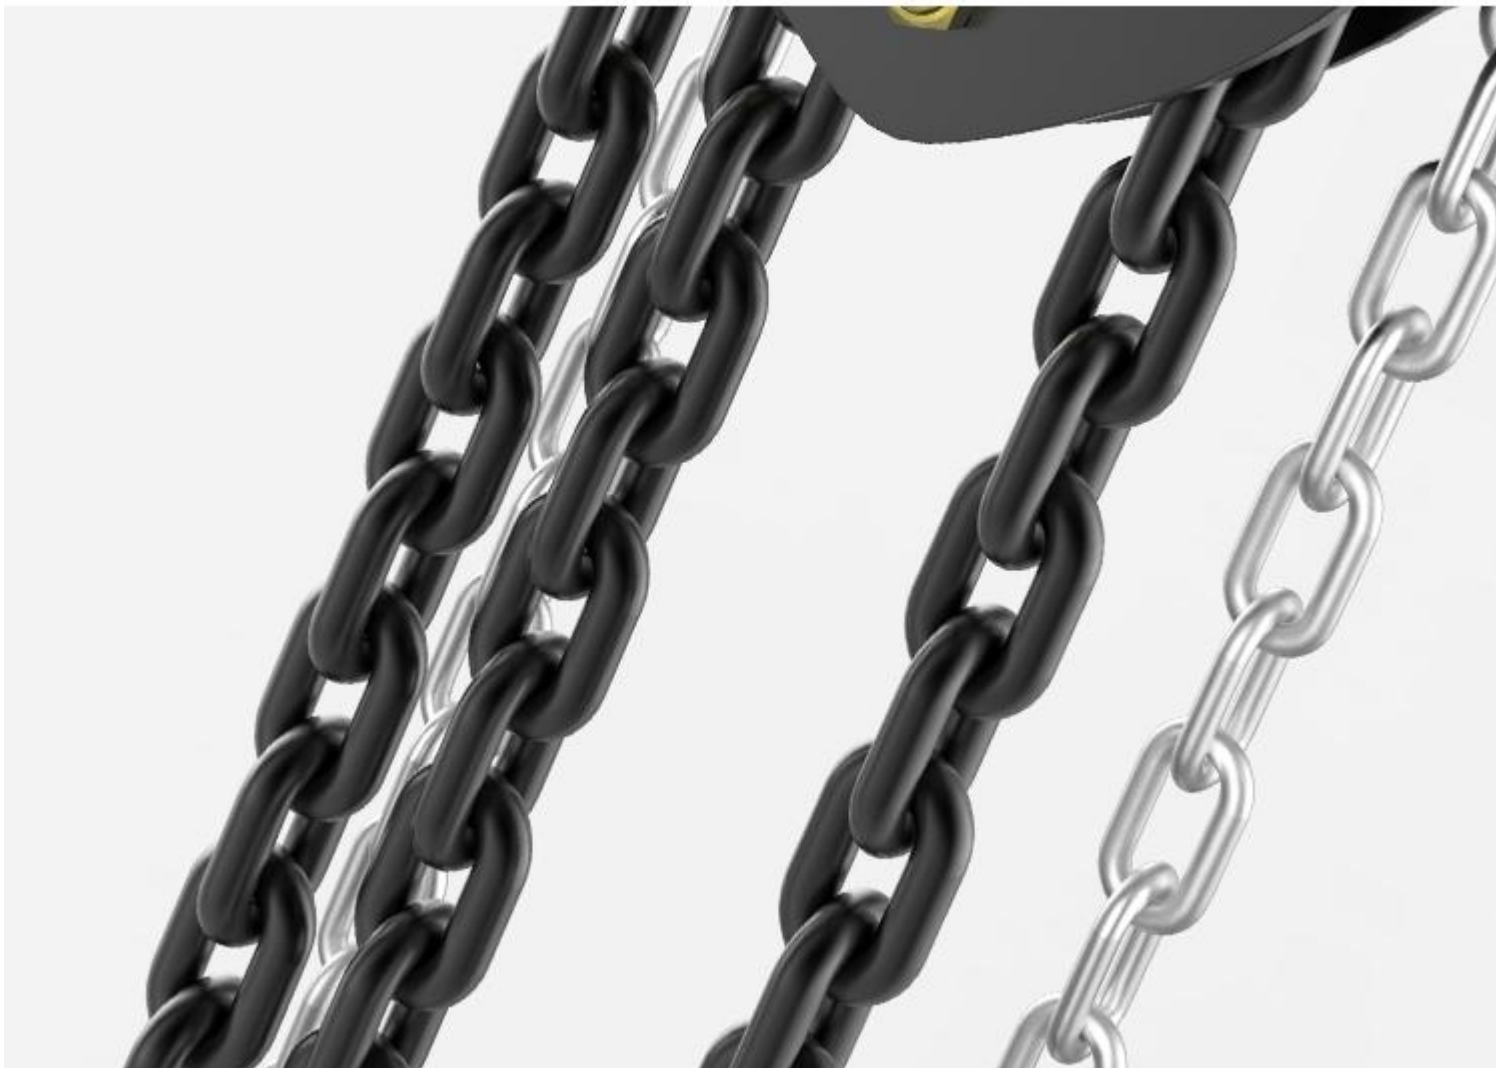

Chain Block 5 Ton Compact sprocket, smooth slot and no chain, smoother and more convenient to use

Chain Block 5 Ton Manganese steel chain, strong welding point, strong and durable, not easy to break

The surface of the chain is polished, polished, boiled, and spray-painted. Longer life

Chain Block 5 Ton Alloy steel shell, classic shape, durable

## 5、 Product qualification

Shanghai Yiyong Crane Machinery Company is the hoist manufacturer Institute certified. This means we are one of the industry's leading suppliers of hoist equipment. We are reliable and deliver exceptional value.

Shanghai Yiyong Crane machinery Company supply Chain Block 5 Ton .it is the most popular in Asia ,America and Canada ,It is beautiful ,strong and durable.we promise the Chain Block 5 Ton warranty is 2 years.and the hand cable is warterproofed,and we really welcome the treaders around the world join in us .

## 6、 Deliver shipping and serving

Chain Block 5 Ton is packed in a fumigation-free wooden box to ensure that the product is not damaged during transportation. The Chain Block 5 Ton provides a 2-year warranty, and provides free online consultation for customers, regular follow-up visits, and timely understanding of customers Dynamics and requirements.

## 7、FAQ

1. When can I know the price?

if all the info confirmed. we must send you the quotation in 1H.

2. How about the price? Can you make it cheaper?

The price depends on the item your demand(Shape,size,quantity) Beat quotation after receiving full description of the item you want

3. Production time?

To most of the items, for regular qty, usually we can finish the goods production in 25-35days

4. What is your payment term?

For stock items, T/T in advance.

For customize order, 30% T/T in advance, balance before shipping.

5. What is the delivery time?

For stock items, send out in 3-7 workdays after payment.

For customized order, we can deliver in 15-25 days. It's based on what's kinds of styles and the quantity.
