Product Feature

Sometimes many customers want to enlarge the storage space and style in the corner of their kitchen or bathroom, they may use the popular diagonal frameless wall cabinets. However the cabinet places the door and sides at a 45°angle rather than the standard 90°angle, which means standard hinges do not work, our 45° degree Cup Hinges are specially designed for these cabinets so you can enjoy all their benefits. Our wholesale 90°and 135°hinges at cheapest price are with clip on design. The most attractive advantage for the clip on hinge is its clip on design, which make you easily assemble the hinge body to the hinge plate with just softly pressing on the end of the hinges.
