Product Feature

Stainless Steel European Cup Hinges made of SS304 material are more corrosion resistant and durable than nickel-plated steel. They also have good chemical resistance, great look and function in even the harshest of elements. Stainless Steel Concealed Cup Hinges are ideal for contemporary cabinets that are increasingly popular for all over the world. The concealed hinge series offer a 105°opening angle and is offered for large overlays, half-overlays, and recessed installations. The soft-closing mechanism is fully integrated in the hinge arm to provide a sleek look. The hinges with soft-closing are operated with a light movement of the wrist in a uniform and silent manner.
