Features

1. Detachable bedside and tailstock. With lock catch type system, it is easy to detach for rescue, special nursing, move the patients safely.
2. Handheld line-type remote control with large icon can be freely handled; groove on the guardrail can hold remote control to avoid sliding.
3. The bed surface is shaped one for all by cold-rolled steel plate. Electrophoresis and powder flame plating ensure the inner of the pipe is protected by paint and the outer and inner quality is the same.
4. Imported chained motor, VO level fireproof material is very smooth, it is easy to clean. The motor's noise is very low and lifetime is long.
5. Back side and leg side are connected, when the back side goes up and down, the leg side will coordinate, thus can avoid bed sores and reduce medical workers' work pressure.
