P1.667mm Rental Event Led Screen Detail

Unit Module Specifications

Item	Parameter
Model	P1.667mm Small Pixel Pitch LED Module
Pixel Pitch	1.667 mm
Pixel Configuration	3in1 (1R1G1B)
Module Size	200mm * 150mm
Module Resolution	120*90 dots
Module Weight	0.3KG
Package LED mode	SMD1010 Black LED
Max Power	20.5W
Pixel Density	641'025 dots / SQM
Driving Method	Constant Current Driving
Scan Method	1/30 scan
Interface Way	HUB 75
Brightness	≥ 1500CD /SQM
Safety Standard	CCC, FCC, ROHS, TUV, CE, ETL, UL, BIS.....

Unit Cabinet Specifications

Cabinet Size	400mm * 300mm (Customize)
Cabinet Composing	4 pcs
Power Supply Mode	5V/60A per cabinet
Cabinet Resolution	240dots * 180dots
Optimal Viewing Distance	1.6-160M (according to the big screen size)
Optimal Viewing Angle	Horizontal angle: 160 degree; Vertical angle: 140 degree
Environment Temperature	Storage: -40 degree ~ +85 degree; Work: -20 degree ~ +60 degree
Relative Humidity	10% ~ 95%

Power Supply Specifications

Operating Voltage	AC:100V~120V AC:220~240V
Average Power	150-360W/ SQM
Max Power Consumption	≤ 1000W/SQM
Current	≤ 20mA (single LED)

Control System Specifications

Computer	Pentium4 or above P4 or above
Operate System	Win7-11/2000/NT/XP
Control Mode	Synchronization with PC

Main Technical Parameter Specifications

Driving Device	Constant Current Driving
Refresh Rate	≥ 1900-3840Hz
Gray/Color	RGB each 256 grade, can display 16.7color
Lifespan	≥ 10000hours
Power Switch	RGX Automatic Switch
Display Mode	2048*1024/1024*768/1280*960mm

P1.667mm die cast aluminum video cabinet

slim & light / fast assemble& disassemble /movable use

Wide viewing angle
Horizontal 140°/ Vertical angle 160°

Video processor

Not necessary if you only connect PC to your LED screen .

6.5 cm Wall Mount

Thinner design, won't take much space and slim outline

Keep your screen always cutting-edge

Shareable HUB & power supply and same panel design, easy to renew or upgrade your old screen after long time usage, always keep your screen newest technology and better display effects.

Seamless Splicing for closer viewing

Fine die-casting aluminum cabinet, HD Seamless Display, eliminate the visual seam, and enjoy the big, complete display effect.

RGX design: Easy installation

Easy installation

Ready-made brackets, ensuring the whole screen flat and seamless;

Just 4 steps can finish the installation

1, RGX high refresh rate and high greyscale, outstanding image quality

2, Wider color gamut (RGX)

It's LED display is self-illuminating and has a wider color gamut with no boarder. it can offer higher brightness with enhanced modular seamless splicing

High Refresh rate and high greyscale, outstanding image quality

Wider color gamut

It's LED display is self-illuminating and has a wider color gamut with no border. It can offer higher brightness with enhanced modular seamless splicing.
