

Frozen food label

For Jingyida's Frozen food label we usually do waterproof lamination on the surface of the label. Generally, we will cover the surface of the label with glossy film, matte film or oil. As for glue, we will also recommend different glues, such as hot melt glue, oil glue, water glue, and viscose glue, through the surface of the customer's paste. Our material itself has been waterproofed, and the materials used for Frozen food label are: Vinyl, BOPP, PVC, PET, Art Paper, etc. We can customize any size and shape for you, and the minimum order quantity is only

500 pieces. In terms of printing process, like bronzing, cold stamping, partial UV, embossed, etc., we can print them all. Generally, our delivery time is 3-5 days. If the quantity is very large, we can also ship in a short time. Through the unremitting efforts of all employees of Jingyida, we have passed the ISO9001 certification, and can provide SGS certification for various materials. The well-known brands we cooperate with are YouTube, Toyota, Apple Pay, ISA, etc. And the labels are sold all over the world. In terms of after-sales, if there are quality doubts, such as color difference problems and inaccurate sets, we will re-manufacture the goods for you free of charge, so as to avoid your worries.
