Product Detail

SNUG AND SECURE RIDE: Ultra-durable rubber frame holder straps, safety straps, and anti-wobble locking hitch system fasten your bike tight to this heavy-duty, powder-coated steel rack—keeping your bike safe and secure for years of adventure to come.

NO-SWEAT SETUP: Spend more time on your bike and less time in the garage. Assemble and install this bike rack in a flash and hit the road instructions and all assembly and installation hardware included.

ANYTIME ACCESS: Reach for gear in your trunk or hatchback without removing your bike rack. A quick-release tilt lever provides easy access to your vehicle's rear cargo area, no bike unloading required. This folding bike rack creates a low profile and stores easily when not in use. attach it to your hitch, then use the tie-down cradle system to individually secure and protect the bikes.
