Product Feature And Application

MADE FOR YOUR BIKE: Looking for an e-bike hitch rack? This platform-style, hitch-mounted bike rack supports everything from the skinniest road bike to the fattest e-bikes and keeps on trucking. This bike carrier can transport 1 or 2 bikes weighing a total of 120 lbs and is compatible with 1.25-inch hitches.

Product Detail

Ebike Compatible - holds two bikes each weighing 65 lbs (130 lbs max load). V70 Hitch Rack is for road bikes, mountain bikes, MTB, fat tire bikes up to 5 Inches wide. Compatible with SUVs and cars with 2" tow hitch receiver. **NOT FOR:** Class B vehicles front of vehicle, vehicle being towed, 5th wheel or trailer.

Convenient Tilt Down & Fold Up - Quick release pedal tilts down the bike hitch rack for easy trunk access, and also folds up out of the way when not in use. **Flexible Wheel**

Cradles - Snugly fits narrow/wide bike tires up to 5" wide. Ratchet straps hold wheels securely in place without scratching rims or damaging tires.

Triple Lock Security - Three locking mechanisms to keep your bikes extra secure.

Includes Safety Strap - Feel confident with your precious cargo. NOTE: Step-through / womens bikes must use a frame adaptor (not included).

Patented Anti-Wobble Hitch - Locks the rack to the hitch receiver to reduce movement. Enjoy a smooth rattle free journey. IMPORTANT: Not for use on vehicles.
