Class 8.8 Steel Fully Threaded Rod Zinc Plate

We are a factory with rich experience to produce class 8.8 steel fully threaded rod zinc plate 8.8, we are engaged in manufacturing and supply of a wide range of High threaded rod and other Fasteners. We manufacture the products using quality raw material and using advanced technology to maintain the ISO, standards in our complete range. Further, we can also provide customization facility in terms of products as well as in terms of packaging, to suit the varied requirements of our clients.

1.Product Introduction

class 8.8 steel fully threaded rod zinc plate 8.8 also serves as a popular method of hanging sheet metal ducts and other equipment within a building. Installers attach one end of the rod to the ceiling structure, then thread the other end into a special fastener or clip. These clips or fasteners can then be used to hang ductwork, light fixtures, or mechanical equipment.

class 8.8 steel fully threaded rod zinc plate 8.8 provide good strength for general-purpose metric fastening applications. They are made of carbon steel that has been quenched and tempered.

2. Product Parameter (Specification)

Standard	DIN, UNI, ISO, JIS, GB, IS, BS, ASME, ANSI, ASTM and all International Standards
Size	M3,M4, M5, M6, M8, M10, M12, M14, M16, M20, M24, M30, M36 to M100
Length	200mm to 6000 mm
Studs Threads	METRIC, BSW, BSF, UNC, UNF or as required

Specification List of class 8.8 steel fully threaded rod zinc plate 8.8

3.Product Feature And Application

steel fully threaded rod zinc plated can be used to join wood or metal together, acting as a pin to connect the two materials. They are often inserted into concrete or wood during a repair, and can be used to stabilize structures ranging from wooden furniture to concrete walls. Builders and contractors may also use a threaded rod when constructing homes or other types of buildings. steel fully threaded rod zinc plated are also popular with metalworkers when building furniture or consumer goods.class 8.8 steel fully threaded rod zinc plate 8.8can be

4.Product Details

class 8.8 steel fully threaded rod zinc plate 8.8 description:

Category	Fasteners
Sub Category	Rod
Туре	Threaded
Sub Type	Stud
Standard	DIN 975
Grade	Class 8.8
Material	Steel
Coating	Zinc plate
Unit	Metric
	Thread Full Length (TFL).
Description	General Purpose.
Application	External Thread, Tapped Hole, For Nut, Headless
Availability	Stock Item.
