prominent feature of watercolor pigments.

2. spirit dynamic. Watercolor use of mediums is water, water flow, infiltration, mutual permeability and other characteristics, decided that watercolor has a strong spirit of movement and flexibility of techniques. These properties of water also provide great space and possibilities for creativity.

3. Lightness. Watercolor paintings generally do not use or rarely use white powder, water consumption is large, the brush movement is light and flexible, coupled with water leveling, give a person with light and lively feeling.

4. Sense of brightness. The transparency of watercolor pigments and the use of a lot of water, together with the usual use of white watercolor paper, make watercolor paintings give a very bright feeling.
