

Carbon Fiber Pickleball Paddle with Most Power

Newday is a leading China Carbon Fiber Pickleball Paddle with Most Power manufacturers. This graphite pickleball paddle has a PP honeycomb core interior and carbon fiber graphite skin on both the front and back of the paddle face. The layer of graphite is very thin, about the thickness of a fingernail. Light and strong, graphite paddles are the most popular paddle we sell for the adult pickleball player. Players like the quick action of the graphite face.

Premium Material – We strictly choose the premium carbon fiber face and poly core material to fulfill high quality pickleball paddles for our clients.

Custom Pattern – Original innovative design can inspire people to buy and play with community. Welcome your custom pattern and logo or contact our team to design paddles for you.

Thickness – 9.8mm/ 12.8mm/15.5mm polymer core for options.

Handgrip – comfortable cushioned design and sweat-absorbent leather tape helps users to better grasp the grip and provides cushioning so that you will not be tired from playing for a long time. Color and logo can be customized.

Shape and Edge-guard – This normal size paddle is designed for starter players with light weight and easy control features. The shape and edge-guard color can be customized.

Custom Package – Custom sling bag, custom paddle cover, custom color box.

Low MOQ – sample order 1 pc / custom order MOQ 100 pcs. Daily production: 10000 pcs
