

Car Inverter

Henan Shuangxin Fire Environmental Protection Equipment Manufacturing Co., Ltd has been producing and supplying car Inverter home and abroad for many years. As a leading manufacturer and supplier in China, we are strong willing to open the International market directly to supplying products with good quality and favorable price.

Product Introduction

Vehicle inverter (power converter, Power Inverter) is a kind of convenient vehicle power converter that can convert DC12V direct current into AC220V alternating current which is the same as mains power for general electrical appliances.

Product Parameter (Specification)

Product certification: ce
Dimensions: 520*218*95
Work efficiency: 90
Load regulation rate: 3 (%)
Rated capacity: 80%
Output frequency: 50/60 (HZ)

Product Feature And Application

Features:
Efficient and stable
Full power, high output
Even fan speed
No noise, quieter

Stable performance, safe and efficient.

Application: Used for car.

Instructions:

1. Place the converter on a flat place and make sure the switch is off.
2. Connect the red and black wires to the red and black terminals of the converter, respectively, and clamp one end with a clip to the positive and negative poles of the battery (the red wire clips the positive pole of the battery, and the black wire clips the negative pole). If using a cigarette lighter plug, insert the plug into the cigarette lighter socket.
3. Insert the power plug of the appliance into the AC socket.
4. Turn on the switch of the converter and it can be used.

Product Details

Suitable for mobile phones, laptops, shavers, small fans, flashlights, cameras, walkies, etc.

ABS Material, fire retardant.

Inner Plug.

Packing list.
