

6S 10S 25A Lithium ion Battery For Electrical Tool UPS BMS

LWS® has a reliability laboratory, which can meet the reliability test requirements of lithium ion battery protection board (BMS) 6S 10S 25A Lithium ion Battery For Electrical Tool UPS BMS is with CE and RoHS. You are welcomed to come to LWS to buy the latest selling, low price, and high-quality 6S 10S 25A Lithium ion Battery For Electrical Tool UPS BMS. We look forward to cooperating with you.

Product Introduction

LWS® battery protection board 6S 10S 25A Lithium ion Battery For Electrical Tool UPS BMS has been professionally and rigorously tested before it leaves the factory, and the quality is strictly checked to ensure that clients can use it with confidence.

Product Feature and Application

Our battery protection board 6S 10S 25A Lithium ion Battery For Electrical Tool UPS BMS has variety protection functions, such as supports overcharge protection, over-discharge protection, over-current protection and short circuit protection

Product Details

LWS® 6S 10S 25A Lithium ion Battery For Electrical Tool UPS BMS

The circuit board is made with high quality electronic components, stable and reliable, suitable for 6 series 3.7V 18650 Li-ion cell

Notes

- 1) Wire connection strictly according to the drawing, do not intentionally short circuit.
- 2) Before charged, need to connect the cables first.
- 3) When the group of battery is connected in series, ensure that the voltage of each

group of batteries voltage is the same. If not, fill each group of batteries separately before connecting them in series. In discharge tests, the group of cells with the fastest voltage drop is the differential cell.
