Customization Wardrobe 定制衣柜

Armadio al Centimetro offers the possibility of creating a private and very personal domestic space. For this reason the project focused from the very start on creating maximum flexibility, principally as regards the dimensions but also in terms of models, materials, elements, finishings and accessories. A wide variety of components gives everyone the maximum choice, enabling people to select according to their own needs and tastes.

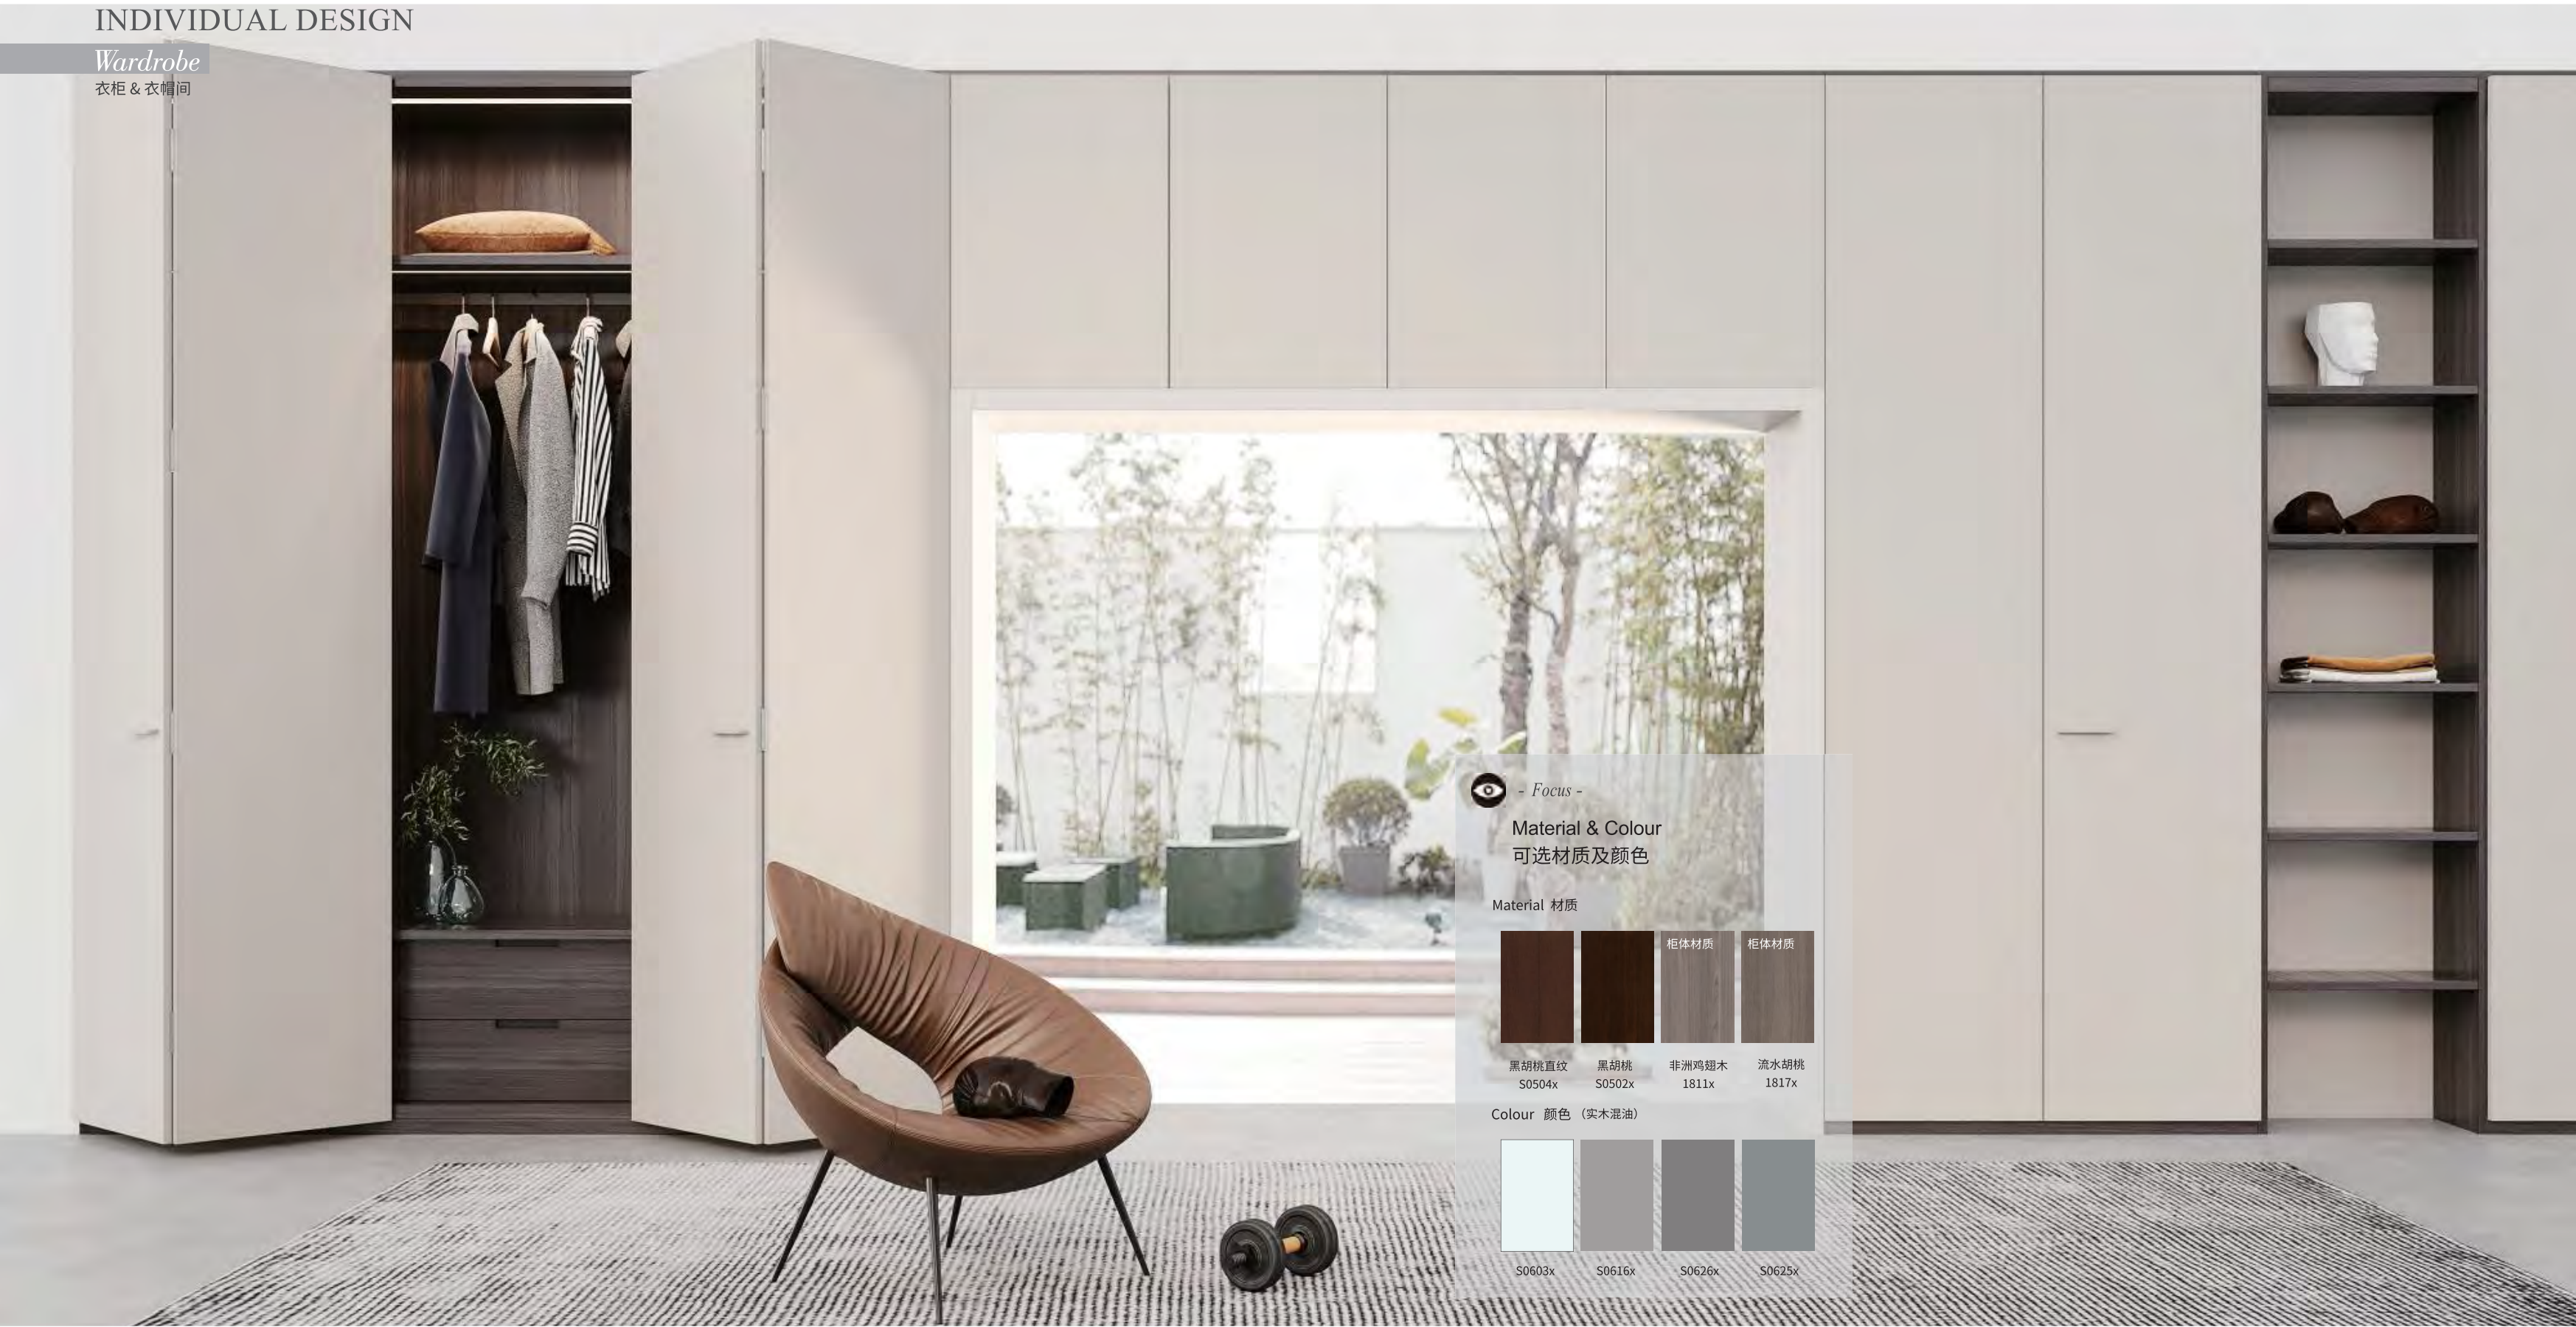

The system develops around the base modules formed of structures and doors: hinged, bi-folding, sliding and coplanar.

定制衣柜提供了创造常规及个性私人家庭空间的可能性。因此，系统从一开始就专注于创造最大的灵活性，主要是在尺寸、模型、材料、配件等方面，同时兼顾装修和配饰。各种各样的组件给每个人提供了最大的选择，使人们可以根据自己和喜好进行选择。该系统围绕柜体结构和门组成的基本模块而开发。内容有：铰链门，双折叠门，滑动门，共面门。
