

### Heat Shrink Termination Kit 15kV outdoor cable accessories

Model: WSY-15

Indoor / Outdoor shrinkable cable termination kit raychem is widely used in the indoor and outdoor directly and intermediate terminal connection of every kinds of power cable. These Heat

Shrinkable Termination Kits are easy to install and designed in compliance with the international design standards.

### Product Introduction

Heat shrinkable cable termination kits have the function of waterproof, stress control and insulation. With the excellent electrical and mechanical function, they can be used in all kinds of conditions for a long time. With light weight and easy mounting, they are widely used in power supply and petrochemicals, metallurgy, railway station, sea port and other constructions.

## Product Feature

- Simple and fast installation, no heat or special tools required.
- One-piece design with integrated stress control.
- Offering protection against aging, tracking and erosion.
- High resistance to fungus, acid, alkalis and ozone.
- Accommodating a wide range of cable sizes: 25~630 sqmm.

## Technical Parameters

suit cables sectional area ( mm <sup>2</sup> )		Outdoor termination kit	
No	Section ( mm <sup>2</sup> )	1-core	3-core
1	25-50mm <sup>2</sup>	WSY-15/1.1	WSY-15/3.1
2	70-120mm <sup>2</sup>	WSY-15/1.2	WSY-15/3.2
3	150-240mm <sup>2</sup>	WSY-15/1.3	WSY-15/3.3
4	300-400mm <sup>2</sup>	WSY-15/1.4	WSY-15/3.4

## Packaging & Shipping

### Packaging

Normal package, Packed in Roll, Plastic film winding, Standard export carton, Or based on your demands.

### Shipping

Sea freight: Shanghai port is best or up to you. CRF is best.

Air freight: suggest CRF Or CIF

Express: We have a cooperation with several international express, so can offer a good price. Or can send to you by your own express.
