

### Insulated Fiberglass Telescopic Ladder Adjustable Fiberglass Full Insulated Extension

Model:jecslabber

Jecsany is a professional leader China Insulated Fiberglass Telescopic Ladder Adjustable Fiberglass Full Insulated Extension manufacturer with high quality and reasonable price. Welcome to contact us.

#### Product Introduction

Jecsany is a Insulated Fiberglass Telescopic Ladder Adjustable Fiberglass Full Insulated Extension manufacturer and supplier in China. This ladder is made from glass fiber reinforced plastic, with the properties of high insulation, super light, high strength, small volume and easy to carry.

It is widely used in power engineering, communication engin

#### Different Color Ladder

## Non-Slip Rubber Feet

## Production Technology Comparison

### Winding Technology

**Vs**

### Pultrusion Technology

1. It is made from lots of layers of glass cloth wound together.
2. Glass cloth has both transverse forces and longitudinal forces.
3. The ladder produced by this technology is with the properties of high strength and high insulation.
4. This Ladder is more durable, not easy broken

1. It is made from glass Silk through pultrusion Technology.
2. It only has longitudinal Forces.
3. The ladder produced by this technology is weak, easy broken.
