

Forming Fabric for Coated Paper Making

FarEast (Xinhui) Paper-Making Fabric Co.,Ltd. is one of the largest polyester forming fabric for coated paper making manufacturer and supplier, located in Jiangmen City, China.

D-fabric® is founded in 1995, and we are specializing in the research and production of forming fabric and dryer screen for almost 30 years. We can supply you the stable and high quality for the forming fabric and dryer screen with the best price. Looking forward to becoming

your long-term partner in China.

This forming fabric for coated paper making is made by high quality polyester & nylon that is 16 shaft 2.5 layers structure. It is widely used in Paper Industry. It is used for forming section of paper machine. The top layer of this forming fabric is used thin weft polyester that is used thinner polyester weft in high-density woven and the bottom layer is changed from 8 yarns spanning to 16 yarns to promote the wear resistance of bottom yarn, simultaneously it is woven by thick polyester and nylon to increase the service life. The bottom of this forming fabric is double-warp locked structure, and it runs with high loading for vertical direction and wrinkle resistance for cross direction. Its structure is stable and the retention of filler is high. It is with good dewatering and high wear resistance. It can be used for fourdrinier machine and the top wire of multi-wire paper machine.

Product Parameter (Specification)

Model	Layer	Material
CXW5630F	Two and A Half Layer	Polyester&Nylon

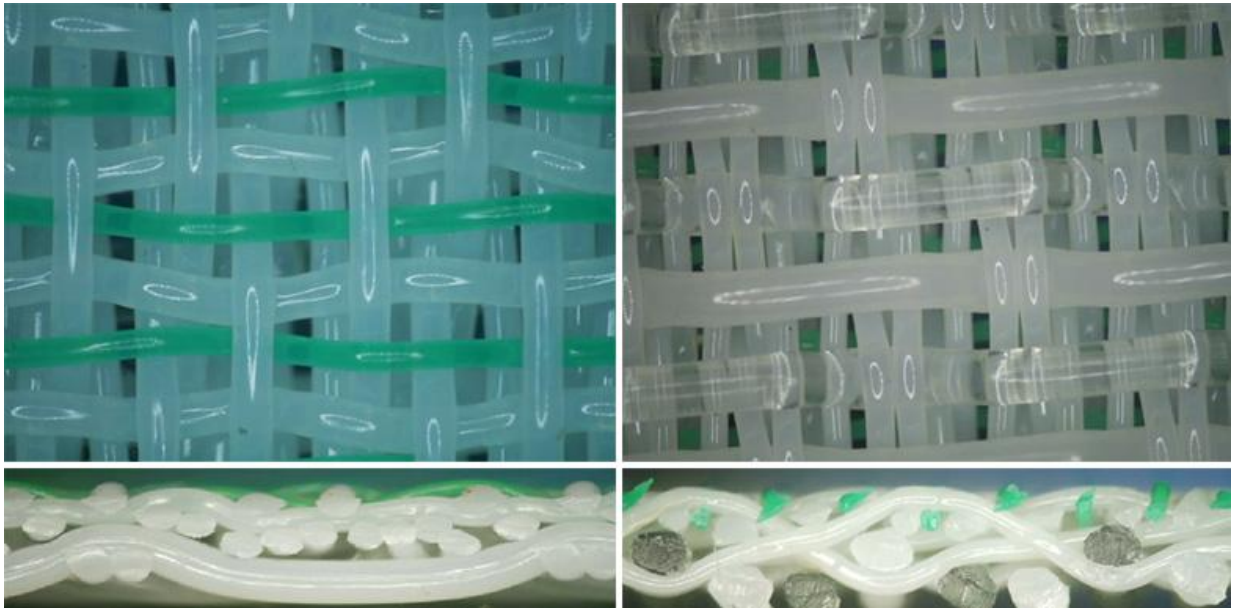

Product Feature

There are SSB triple layers, 2.5 layers, 1.5 layers, single layer forming fabric used for forming section of paper machine. This forming fabric for coated paper making is 2.5 layers forming fabric structure, and its seaming design keeps the high retention of paper forming and increases the wear resistance. There are SSB triple layers, 2.5 layers, 1.5 layers, single layer forming fabric used for forming section of paper machine. This forming fabric for coated paper making is 2.5 layers forming

fabric structure, and its seaming design keep the high retention of paper forming and increase the wear resistance.

Product Application

This forming fabric for coated paper making is suitable to produce cultural paper(30-60gsm),yoshire paper/tissue paper and some specialty paper,and it is used for top wire(20-40gsm) for test liner,coated paper.This forming fabric for coated paper making is suitable to produce cultural paper(30-60gsm),yoshire paper/tissue paper and some specialty paper,and it is used for top wire(20-40gsm) for test liner,coated paper.

Product Details

The main characteristics of FarEast forming fabric for coated paper making are with good dewatering,good structure stability,long service life and high wear resistance.Its characteristics and the best seaming structure promote the paper quality for paper mills.FarEast forming fabric help many paper mills manufacture excellent quality paper and keep the stable quality.

Company Details

Our quality system has been assessed and meets the ISO9001:2008 quality standard by TUV,and we have obtained 15 related patents,including 6
