

Plain Weave Dryer Canvas Dryer Fabric

FarEast (Xinhui) Paper-Making Fabric Co.,Ltd. is one of the largest polyester plain weave dryer canvas dryer fabric manufacturer and supplier, located in Jiangmen City, China.

D-fabric® is founded in 1995, and we are specializing in the research and production of forming fabric and dryer canvas for almost 30 years. We can supply you the stable and high quality for the forming fabric and dryer canvas with the best price. Expected to establish a long

term cooperation relationship with you in China.

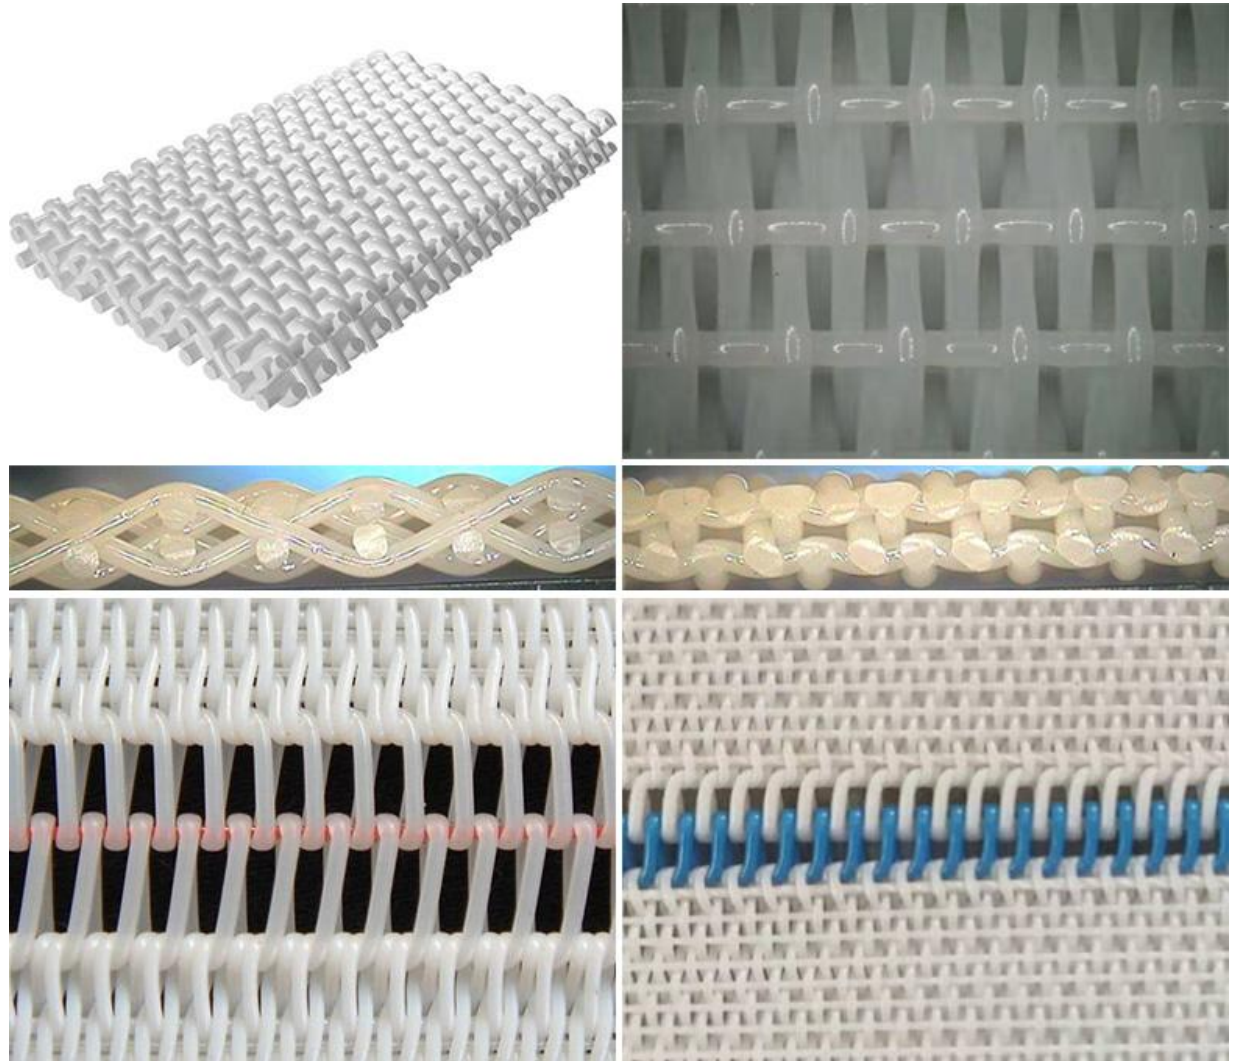

This plain weave dryer canvas dryer fabric is made by high quality polyester yarn that is double layers structure. It is widely used in Paper Industry and used in the dryer section of paper machine. It is 4 shaft double layers dryer screen which is woven by strong and round weft yarn and warp yarn. The double structure enhance the stability and running effect when this dryer screen is running in the paper machine. The uniform and smooth surface increase heat transfer and drying capacity. This dryer screen is thicker, smooth and with good dimensional stability and long service life. The interface structure is good that enhance the smoothness of interface. The thicker diameter of yarn increase the strength of interface.

Product Parameter (Specification)

Model	Layer	Material
GW22504	Double Layers	Polyester

Product Feature

This plain weave dryer canvas dryer fabric is 4 shaft double layers and used in the dryer section. The double structure enhance the stability and running effect when this dryer screen is running in the paper machine. This dryer screen is thicker, smooth and with good dimensional stability and long service life.

Product Application

This plain weave dryer canvas dryer fabric is suitable to produce test liner, coated paper, fluting paper and partial cultural paper.

Product Details

The main characteristics of FarEast plain weave dryer canvas dryer fabric are with good dimensional stability and long service life. The interface structure is good that enhance the smoothness of interface. The thicker diameter of yarn increase the strength of interface. FarEast forming fabric help many paper mills manufacture excellent quality paper and keep the stable quality.
