

304 Austenitic Stainless Steel Seamless Pipe

Budweiser Steel Co., Ltd. is a professional manufacturer and supplier of Bewell® 304 austenitic stainless steel seamless pipes in China. Over the years, we have been specializing in the production of various types of stainless steel seamless pipes. Our products have a good price advantage and cover most of the European market. We look forward to being your long-term partner in China.

Product Description

Bewell® Stainless steel seamless pipe is a long strip of steel with a hollow section without seams around it. This 304 Austenitic Stainless Steel Seamless Pipe produced by Bewell Steel Co., Ltd. has the highest quality in the industry, and reflects its unique superiority in terms of high pressure, high strength and other materials, and provides a 5-year warranty. The Bewell® 304 Austenitic Stainless Steel Seamless Pipe produced by Bewell Steel Co., Ltd. is designed to meet the most demanding construction environments and is easy to install and maintain.

Parameter(Specification) of the Bewell® 304 Austenitic Stainless Steel Seamless Pipe

Production standards	ASTM A270, ASTM A269, ASTM A249, ASTM A778, ASTM A789, DIN 11850, EN 10357, EN 10217-7, etc.
Size	Outer diameter=16-2000mm ; Thickness = 0.8 - 20 mm ; Length = 6 - 18.3 meter ; Or as customer' s request.
Tolerance	According to the Standard , +/-10% Commonly ;
Surface Treatment	180#, 320#, 400# Satin / Hairline, Bright Anneal, Pickle,400#, 500#, 600# or 800# Mirror finish
Application	Petrochemical Industry ; Chemical Fertilizer Industry ; Oil Refining Industry ; Oil And Gas Industry ; Light Industry And Food Industry ; Pulp And Paper Industry ; Energy And Environmental Industries .

E-mail:bwss@vip.163.com

Test	Flaring test ; Flattening test ; Bending Test ; Hydraulic Test ; Eddy Current test
Design	OEM / ODM / Customized
Certificate	ISO9001 ; ISO14001; ISO 18001; TUV ; SGS

Feature and application of the Bewell® 304 Austenitic Stainless Steel Seamless Pipe

Features:

- (1) Safe non-toxic
- (2) Non-fouling
- (3) Reasonable design
- (4) Matching pipe fittings
- (5) Low thermal conductivity
- (6) Corrosion resistance

The Four Cores

Create A Brighter & Safer Life

with an essential stainless steel welded tubing

Harmless To Human Body
Environmental Protection

Smooth Interior & Exterior
Fine Workmanship

Long Performance Life
Structural Disabilities

Not Damage in Earthquake
Excellent in Cushion Effect

High Strength & Watertight

It is not easy to damage in case of earthquake

Safe
Non-toxic

Non-fouling

Reasonable
Design

Matching
Pipe Fittings

Low
Thermal
Conductivity

Corrosion
Resistance

Application scenarios:

Compared with solid steel such as round steel, Bewell® stainless steel seamless pipe is lighter in weight when the bending and torsional strength is the same, and is a kind of economic cross-sectional steel, widely used in the manufacture of structural and mechanical parts, such as oil drilling rods, automobile transmission shafts, bicycle frames and steel scaffolding used in building construction, etc.

Details of the Bewell® 304 Austenitic Stainless Steel Seamless Pipe

Bewell® 304 Austenitic Stainless Steel Seamless Pipe are widely used in the food industry and for the transport of liquids and gases. Due to its versatile properties it is also used in household appliances and applications. In China, we are a leading manufacturer of stainless steel 304 tubes. Our vision is to produce the best products at reasonable prices for all.
