

304H Welded Rectangular Tube

Zhejiang Bewell Steel Co., Ltd. is a well-known supplier and manufacturer of Bewell® stainless steel pipes, 304h welded rectangular tube and all types of fittings in China. Although Zhejiang Bewell Steel Co., Ltd. has many years of history and superb technology in stainless steel welded pipes, we will continue to build our technical expertise through investment in equipment, processes, personnel and certification, and we look forward to a long term partnership with you.

Product Description

Bewell® 304H Welded Rectangular Tube are generally finished by cold rolling, high frequency welding and forming. Rectangular welded pipe is a kind of slotted pipe and hot rolled seamless pipe can be divided into hot rolled seamless pipe and cold drawn seamless pipe. Hot-rolled steel tubes are finished by forging, piercing, rolling and forming.

Parameter(Specification) of the Bewell® 304H Welded Rectangular Tube

Product	304H Welded Rectangular Tube
Standard	ASTM A554, EN10296-2
Material	304, 304L, 316, 316L, 201, 202, 409L, 410, 430
Outside Diameter	round: 6.0 - 273mm or customized
	square: 8×8 - 100×100mm or customized
	rectangular: 20×10 - 120×60mm or customized
	oval: 30×15, 80×40 mm or customized
O.D. Tolerance	According to ASTM A554 standard
Thickness / Tolerance	0.6-3mm, +/-10%
Length / Tolerance	5.8meters or 6meters or customized, ±0.5mm

Process Method	Code drawn, annealed with nitrogen protection, ultrasonic, automatic shape, polished
Finishing	Satin / Sanded / Brushed / Hairline HL: 180 grit, 240 grit, 320 grit
	Bright: 400 grit, 600 grit, Mirror: 800 grit / 8K
	Tin Titanium Colour / Wooden Grain Coating
Application	Handrail systems, furniture, display shelf, sanitary wares, machinery equipment, automobile
Packaging	Each Tube packed by plastic bag individually then bundle or customized

Feature and application of the Bewell® 304H Welded Rectangular Tube

Features:

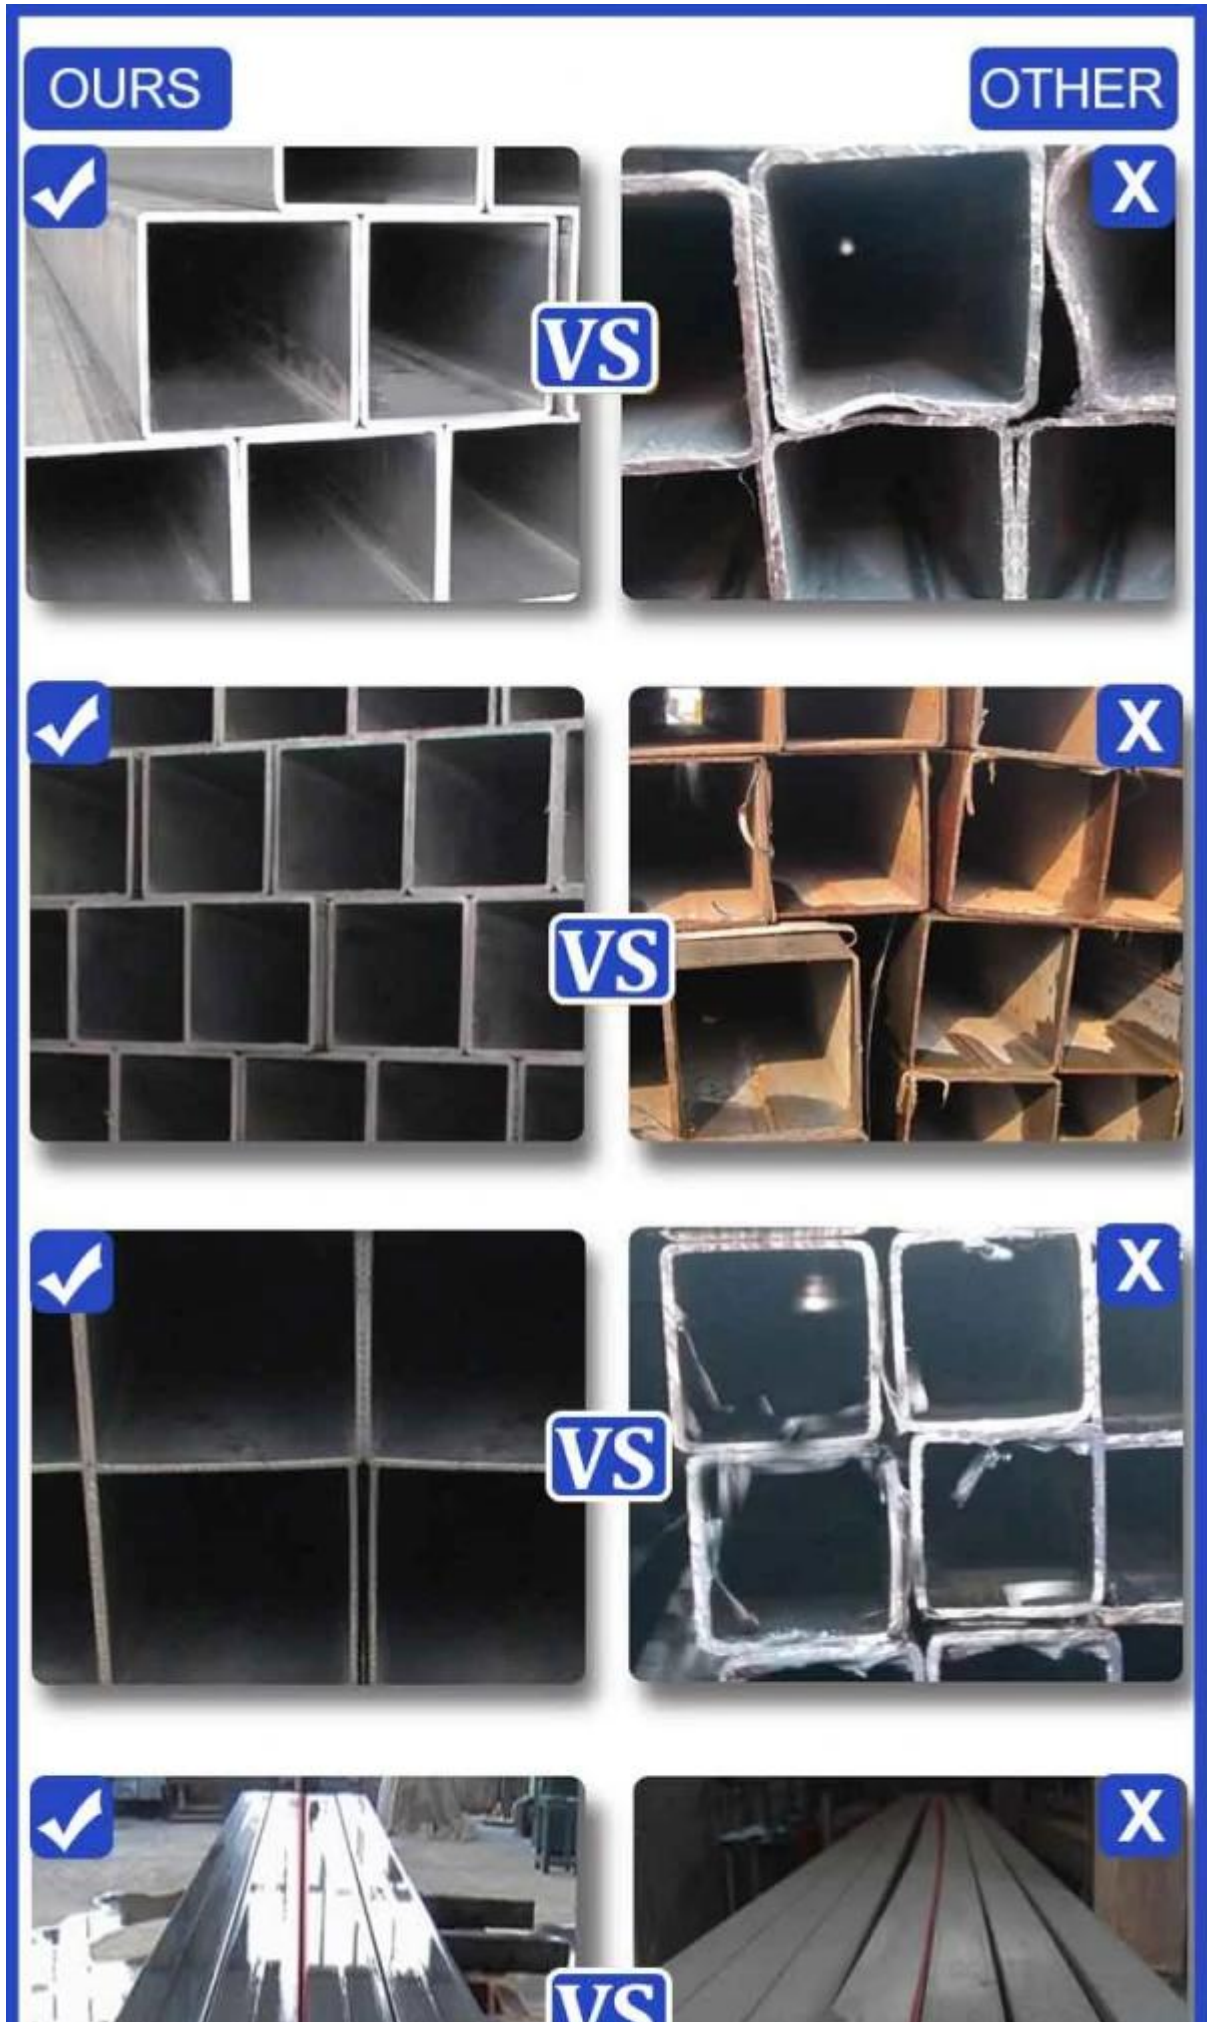

- (1) Direct supply
- (2) low replacement frequency
- (3) Rigorous selection
- (4) Quality assurance

Application scenarios:

Application

Details of the Bewell® 304H Welded Rectangular Tube

PRODUCT DETAILS

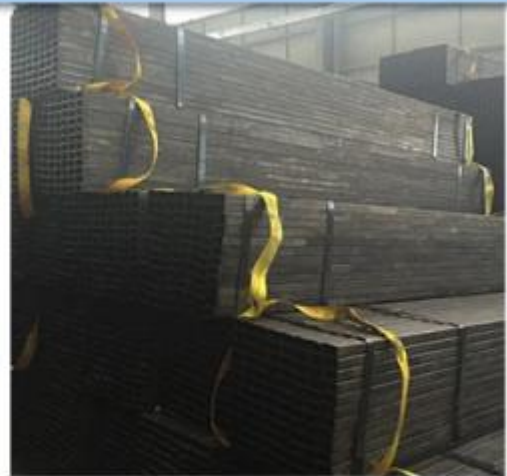

1. Steel hot pressed into rectangle
Hollow perforation

2. Smooth and bright surface

3. Interior is still smooth, wear-resistant
no crack

4. Excellent quality, easily deformed,
excellent protection
