

### 304L Welded Rectangular Tube

Zhejiang Bewell Steel Industry Co., Ltd. is a leading enterprise in the square tube industry, specializing in supplying all kinds of Bewell® 304L welded rectangular tube, stainless steel square tubes, rectangular tubes, is one of the more complete specifications in the square tube industry, the company has experienced sales team, by providing good service, won a wide market share and a good reputation. The company adopts modern management concept, insists on quality for survival and honesty for development, and gradually ascends to the competitive platform of globalization. We look forward to your long-term cooperation with our company.

### Product Description

Bewell® 304L Welded Rectangular Tube are generally finished by cold rolling, high frequency welding and forming. Rectangular welded pipe is a kind of slotted pipe and hot rolled seamless pipe can be divided into hot rolled seamless pipe and cold drawn seamless pipe. Hot-rolled steel tubes are finished by forging, piercing, rolling and forming. Compared with solid steel such as round steel, steel pipe is lighter in weight when the bending and torsional strength is the same. It is an economic section steel and is widely used in the manufacture of structural and mechanical parts such as oil drilling rods, automobile drive shafts, bicycle frames and steel scaffolding used in building construction.

#### Parameter(Specification) of the Bewell® 304L Welded Rectangular Tube

Product Name	304L Welded Rectangular Tube
Material	Q195 Q235 Q345
Wall Thickness	1MM~12MM
Size	10MMX10MM~600MM~600MM
Length	Length:Single random length/Double random length 5m-14m,5.8m,6m,10m-12m,12m or as customer's actual reques
Standard	ASTM A53,BS1387-1985,GB/T3091-2001,GB/T13793-92, GB/T6728- 2002,API 5L
Packing	Bundle, or with all kinds of colors PVC or as your requirements

Pipe Ends	Plain end/Beveled,protected by plastic caps on both ends, cut square,grooved,threaded and coupling,etc.
Surface Treatment	<ol style="list-style-type: none"> <li>1. Galvanized</li> <li>2. PVC,Black and color painting</li> <li>3. Transparent oil,anti-rust oil</li> <li>4. According to clients requirement</li> </ol>
Product Application	<ol style="list-style-type: none"> <li>1. Fence, greenhouse, door pipe,greenhouse</li> <li>2. Low pressure liquid, water, gas, oil, line pipe</li> <li>3. For both indoor and outdoor the building construction</li> <li>4. Widely used in scaffolding construction which is much cheaper and convenient</li> </ol>
Certificates	API ISO9001-2008,SGS,BV,API,
Delivery Time	Usually within 10-45 days after receipt of advance payment

### **Feature and application of the Bewell® 304L Welded Rectangular Tube**

#### **Features:**

Complete specifications

Anti corrosion

(3) low replacement frequency

(4) High precision

#### **Application scenarios:**

## APPLICATION
