

347 Austenitic Stainless Steel Seamless Pipe

Zhejiang Bewell Steel Industry Co., Ltd. is a large manufacturer and supplier of Bewell® 347 austenitic stainless steel seamless pipe, seamless stainless steel tubes in China. We have been specialising in the production of Bewell® seamless stainless steel pipes and other fittings for nearly ten years. With good price advantage and good service quality, our products have been sold to most of the European and American countries with good feedback from our customers and we are looking forward to be your long-term partner in China.

Product Description

Bewell® Seamless stainless steel tubes are un-welded seamless stainless steel tubes with all structural organisation in one piece, while welded tubes have one or more welded seams. Compared to welded stainless steel pipes, Bewell® 347 Austenitic Stainless Steel Seamless Pipe produced by Zhejiang Bewell Steel Co., Ltd. are more widely used due to their better corrosion resistance, higher structural strength and more beautiful internal and external surfaces, which makes seamless pipes last longer, last longer and are replaced less frequently than welded pipes.

Parameter(Specification) of the Bewell® 347 Austenitic Stainless Steel Seamless Pipe

Type	Bewell® Stainless Steel Decorative pipe
Material	304 304L 316 316L 316Ti 321 309S 310S 317L 347H 2205 2507 904L
Thickness	1.73mm-59.54mm
Outer diameter	10.3mm-1219.0mm
Length	6m or as customer's requirement
Finish	Polished, Pickled, hairline, mirror
Shape	Round
Technology	Seamless, weld
Standard	JIS, AISI, ASTM, GB, DIN, EN ,etc.

Packaging	Standard exporting packing
Payment Terms:	1) 30% T/T in advance, 70% T/T paid at copy of B/L 2) 30% T/T in advance, 70% by L/C at sight 3) 30% T/T in advance, 70% paid after SGS inspection.
Delivery:	5-25 days after your deposit, or according the quantity

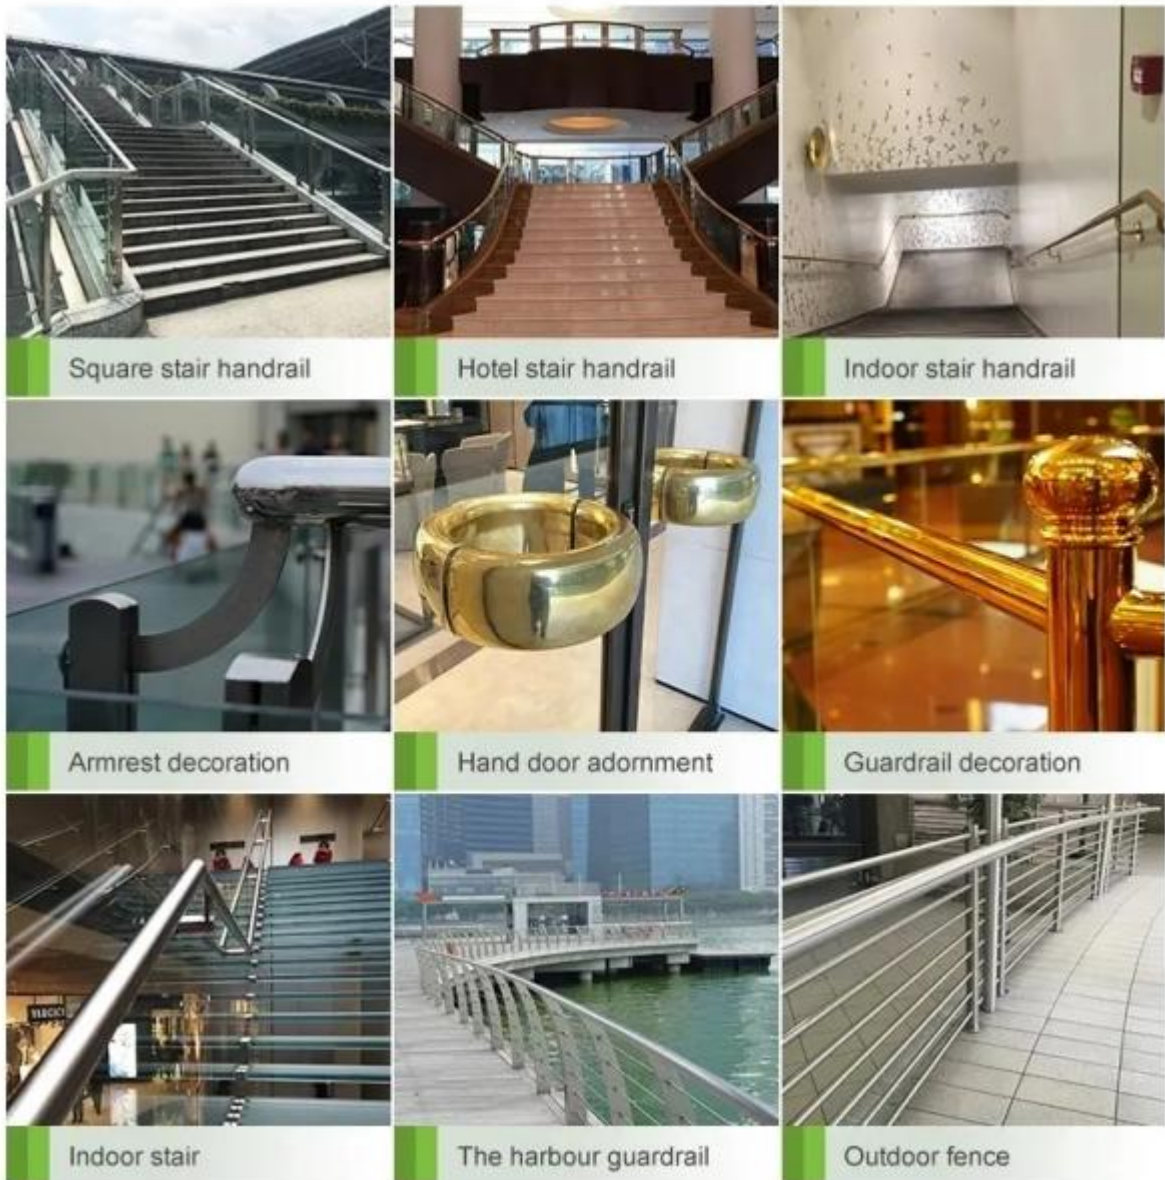

Feature and application of the Bewell® 347 Austenitic Stainless Steel Seamless Pipe

Features:

- (1) high tensile and fatigue strength
- (2) stable chemical composition
- (3) pure steel
- (4) low inclusions

Application scenarios:

Bewell® 347 Austenitic Stainless Steel Seamless Pipe are widely used in petroleum, chemical industry, electric power, printing and dyeing, medicine, food, paper making, environmental protection, ship berthing, marine mining, aerospace, mechanical equipment, rail transportation, building decoration and other fields.

Details of the Bewell® 347 Austenitic Stainless Steel Seamless Pipe

Bewell® 347 Austenitic Stainless Steel Seamless Pipe are used in cookware, tableware, household hardware, surgical instruments, major appliances, tanks for transporting orange juice and other foodstuffs and tank cars are often made of stainless steel due to their corrosion resistance and antibacterial properties. In addition, the application on buses, high speed trains and subways is becoming more and more widespread, and the potential for the application of stainless steel seamless tubes in this field has a lot of room for expansion.
