Product Description

Bewell® Blind Stainless Steel Flange, also known as the blind flange, the actual name of the blind plate. It is a form of connection of flange. In fact, it is a flange without a hole in the middle. Flange blind flange to isolate, cut off the role, and the head, the role played by the cap is the same. Because of its good sealing performance, for the need for complete isolation of the system, are generally used as a reliable means of isolation. The blind plate is a solid circle with a shank and is used for systems that are normally in isolation.

Parameter(Specification) of the Bewell® Blind Stainless Steel Flange

Item	Description	
Basic Information	Material Grade	WP304 , WP304L , WP304H , WP316 , WP316L , WP316Ti , WP309S , WP310S , WP321 , WP321H , WP347 , WP347H , F304 , F304L , F304H , F316 , F316L , F310S , F321 etc
	Size	1/2" to 48" Sch 5S to XXS
	Standard	ASTM A403 etc .
	Process Method	Forged / Casting
Industry & Advantage	Application	a) Connect pipes
	Advantage	a) High technology ; good surface ; high quality etc
Terms &	Price Item	FOB , CFR , CIF or as negotiation

Zhejiang Bewell Steel Industry Co.,Ltd.

Phone:+86-18072196625

E-mail: bwss@vip.163.com

Conditions	Payment	T / T , LC or as negotiation
	Delivery Time	30 working days after received your deposit (Normally according to the order quantity)
	Package	Plywood case or as per customer's requirement
	Quality Requirement	Mill Test Certificate will be supplied with shipment , Third Part Inspection is acceptable
Quality	Test	100% PMI test ; Size test etc
Market	Main Market	Europe , Middle East , Southeast Asia , South America . Etc

Feature and application of the Bewell® Blind Stainless Steel Flange

Features:

High temperature resistance
 Health and environmental protection
 good surface
 No rusting
