

S31254 Stainless Steel Seamless Pipe

Zhejiang Bewell Steel Co., Ltd. is one of the manufacturers, suppliers and exporters in China specialising in the production, processing and sale of finished products such as Bewell® s31254 stainless steel seamless pipe, seamless tubes, welded tubes, pipe fittings, flanges and steel rods made of stainless steel, duplex steel and high nickel alloys. We have specialized in steel manufacturing for nearly 10 years and have won the trust of our customers with strong technical support, good quality and service timely and accurate delivery, and have developed into a business pattern of both foreign trade and domestic sales.

Product Description

Bewell® Super austenitic stainless steel seamless tube is usually made of ultra-low carbon, high chromium, high nickel, high molybdenum content austenitic stainless steel tube, mainly for the solution of sulfuric acid corrosion and the development of. Zhejiang Bewell Steel Co., Ltd. produces Bewell® super austenitic stainless steel seamless tubes, which are suitable for use in a variety of complex corrosive media such as comprehensive solutions or sulfide gas and other crevice corrosive environments, and are trusted by customers at home and abroad.

Parameter(Specification) of the Bewell® S31254 Stainless Steel Seamless Pipe

Product name	Bewell® S31254 Stainless Steel Seamless Pipe	
Specification	Round	OD: 6mm~2500mm
		WT: 1mm~150mm
	Square	OD: 4mm*4mm*~2000mm*2000mm
		WT: 0.5mm~100mm
	Rectangular	OD: 2mm*4mm~1500mm*2000mm
		WT: 0.3mm~120mm
Length	2m,3m,5m, 5.8m,6m,11.8m,12m,or as required	
Standard	GB,AISI,ASTM,DIN,EN,SUS,UNS etc	

Surface	BA, NO.4, 8K, 2B, NO.1, Hairline etc	
Payment term	T/T, L/C, Western Union, Cash, PayPal, etc	
Applications	High temperature components such as turbine blades, guide vanes, turbine disks, high pressure compressor disks,machine manufacturing and combustion chambers used in the manufacture of aviation, naval and industrial gas turbines	
Material	Precipitation-Hardening Stainless SteelDuplex Stainless Steel Corrosion-resisting alloy Inconel alloy Incoloy alloy Monel Nickel Hastelloy Nimonic	

Feature and application of the Bewell® S31254 Stainless Steel Seamless Pipe

Features:

- (1) Excellent overall
- (2) localised corrosion resistance
- (3) high tensile and fatigue strength
- (4) stable chemical composition

Application scenarios:

Bewell® Super austenitic stainless steel tubes are suitable for use in a variety of complex corrosive media such as comprehensive solutions or sulphide gases and other gaps in the corrosive environment of certain petrochemical fields and coal chemical equipment such as heat exchangers and pipelines belong to this complex environment.

Details of the Bewell® S31254 Stainless Steel Seamless Pipe

FAQ

- 1. Are you trading company or manufacturer?
 We are manufacturer, You can see the Alibaba certification.
- 2. How long is your delivery time? Generally it is 5-10 days if the goods are in stock. or it is 15-20 days if the goods are not in stock, it is according to quantity.
- 3. Do you provide samples? is it free or extra?

 Yes, we could offer the sample for free charge but need pay the cost of freight.
- 4. What is your terms of payment? Payment<=1000USD, 100% in advance. Payment>=1000USD, 50% T/T in advance ,balance before shippment.
