We are willing to provide you with high quality pipe fittings, the best after-sales service and prompt delivery.

Product Description

Bewell® Super Duplex stainless steel seamless tubes are long strips of steel with a hollow cross section and no joints around them. The thicker the wall thickness of the product, the more economical and practical it is. The thinner the wall thickness, the more expensive it is to process. In general, seamless steel tubes are less precise: uneven wall thickness, low brightness on the inner and outer surface of the tube, high sizing costs, and pockmarks and black spots on the inner and outer surface, which are difficult to remove. Zhejiang Bewell Steel Co., Ltd. Produces Bewell® super duplex stainless steel seamless tubes of high quality and looks forward to being a long-term partner with you.

Parameter(Specification) of the Bewell® S32003 Stainless Steel Seamless Pipe

Description	Bewell® S32003 Stainless Steel Seamless Pipe
Supply Capacity	10000 tons/year
Process Method	cold drawn and cold rolled
Out Diameter	0.2mm-10mm
Wall Thickness	0.01mm-2mm
Length	10mm -6000mm
Steel Grade	200 (Ni : 0.8%), 201B (Ni : 3%), 201H (Ni : 5%)
	301 (Ni : 6%), 304, TP304, TP304L/304L, 321, TP321, 316, TP316L, 316L, 316Ti
	317, 317L, 309S, 310S(2520), 347, Duplex 2205, Duplex 2207, etc.
