MOQ	1Ton
Application	Decoration, industry, etc.
Certificate	SGS
Packaging	Standard exporting packing

Feature and application of the Bewell® S32101 Stainless Steel Seamless Pipe

Features:

High temperature resistance

Corrosion resistance

Good economic properties

(4) Matching pipe fittings

Application scenarios:

Stainless steel seamless pipe is a kind of hollow long round steel, which is widely used in industrial transmission pipelines and mechanical structural components such as petroleum, chemical industry, medical treatment, food, light industry, machinery and meters. In addition, when the bending and torsional strength are the same, the weight is light, so it is also widely used for manufacturing mechanical parts and engineering structures.

Details of the Bewell® S32101 Stainless Steel Seamless Pipe
