## Product Feature

NEWSCREW's Confirmat Screw is a kind of screw fastener that is mainly designed for the purpose to use with a processed-wooden material such as Fiber Boards, therefore, they have a great demand in the furniture and cabinet construction. The head and threads of this type of screw ensure a strong hold over the application. You can easily insert them into a pilot hole with the right tool. Normally, screws are available in different

Head Styles, Shapes, and Sizes and to meet your versatile need Screw Manufacturers offer all its configurations under the same roof. In an order to ensure its lasting performance and strong hold over the application, you should insert the correct-size with the multipurpose drill. The selection of the right type, shape, and size of Confirmat Screw depends on the thickness of the material for which this type of screw is being used. Confirmat Screw is also available in different material and coating that gives it protection from the corrosion or any other damage. This screw is very good for wooden applications but you have to be very careful while working with it because over tighten the screw strip away all its thread.

## Product Application

Confirmat Screw produced by NEWSCREW is commonly used in furniture industrial.
