

BHON track bolts

Ningbo Haixin Railroad Material Co.,Ltd started to produce BHON track bolts from year 2002. BHON track bolts are the special fasteners of our factory. We export hundreds of containers of BHON track bolts and BHDN track bolts to United States and Canada every year. We are one of the earliest and best railway fasteners manufacturers in China. All success of our factory is due to the pursuit of best product quality.

BHON track bolts means button head oval neck track bolts. BHDN track bolts are track bolts with button head diamond neck. These two track bolts are most the same but different necks. BHON track bolts are always assembled with heavy square nuts or heavy hex nuts. All BHON track bolts must be heat-treated before threads rolling. We focus on maintaining a high level of professionalism, service and quality.

Product Parameter (Specification)

Spec.	Grade	Diameter	Surface
BHON track bolts	SAE J429 Gr.5	5/8"-1.3/4"	Plain
BHDN track bolts	SAE J429 Gr.8		Zinc Blue
