Amorho® Lighted Bathroom Mirror Precautions

1. Mirror cleaning

Please rinse with clear water, and regularly wash with glass water to maintain the smoothness of the glass. Wipe off dirt with a neutral detergent and a soft cloth. Stubborn dirt can be removed with a small amount of alcohol. Do not use acidic or alkaline solvents.

2. Mirror maintenance

Do not hit or impact the glass surface with hard objects (especially corners); do not wipe the glass surface with strong acid and strong alkali corrosive solution, so as not to damage the surface luster; do not wipe the glass surface with wire to avoid scratches; prevent direct sunlight with exposure

Amorho® LED Vanity Mirror can be customized according to customer requirements, samples and drawings, and provide you with an overall bathroom space matching plan; one-click customization of bathroom mirrors that belong to your company's product atmosphere.
