#### **Product Description**

This 4-in-1 Flashlight (UV/LED/COB/Red Laser) Portable Pen Torch consists of rechargeable multi-functional flashlight, UV black light, red laser flashlight and penlight. The main floodlight is bright up to amazing 360lm, and tail spotlight 160lm. The UV light is perfect to detect pet urine, bed bug, bathroom stains, scorpion and so on, and you can use the long range red laser pointer light for presentations, teaching, astronomy, camping, hunting and playing with your cats pet.

The tail focus beam spotlight and side COB wide flood beam work light can be dimmed (individually adjustable) to suit your need by pressing and holding the power ON/OFF button. The dim setting is retained until the next time you adjust it. The versatile pocket flashlight adopts high quality aluminum alloy frosted shell, very strong built and durable. The compact size and its magnetic swivel clip make it handy and portable enough for you to travel with.
