

Portable Rechargeable 2-in-1 COB LED Worklight Flashlight

Everyone needs light and everyone loves his home and family, so Carelite was born care for you. Work light , craftsmanship, and art are the most important ingredients in our mission. Carelite Work light has been the most favorite partner for repairmen, electricians, homeowners, and garage with its most competitive price and premium quality since it was born back in 2009. We will also

continue to do more for you.

Product Description

This Portable rechargeable 2-in-1 COB LED Worklight Flashlight is a mechanic flashlight, LED magnetic work light and LED rechargeable drop light. It has a high power COB LED that generates 360 lumens flood beam light and a focused beam dome spotlight of 140 lumens.

Together with an anti-slip ergonomic rubber handle grip, 270 degree pivoting LED bar that provides versatility for lighting work surfaces, a collapsible steel hook and a strong magnet on the base for hand free use, this work light can meet up with all your daily use in the activities on car repair, camping, construction and emergency use.

Each light can be dimmed (individually adjustable) to suit your need by pressing and holding the power ON/OFF button. The dim setting is retained until the next time you adjust it. You can replace or swap a spare battery easily so that the service life could be much longer than the regular light.

Carelite Magnet Light Feature and Application

One Light Multiple Uses

EXCELLENT PRODUCT!
 It is very useful for outdoor/inside the car. Strong magnet and bright light make it handy. Battery indicator in term of percentage is a plus. An option to replace it battery. The only improvement that I wish to have is an option of pushing light.
