Anti-migraine devices.

HeadTerm 2.0 Anti-migraine Device - US Version introduction

HeadTerm 2.0 Anti-migraine Device - US Version is a clinically proven, safe, and effective medical device worn on users' foreheads that uses non-invasive neuronal electrical stimulation technology to prevent and treat primary headache, including migraine, tension headache, and cluster headache. Primary headaches are debilitating conditions that are extremely common among people. Drug treatments are the popular solutions for many patients, but just like with anti-nausea drugs, there are side effects that often turn people away. HeadTerm 2.0 Anti-migraine Device - US Version offers a drug-free treatment without any side effects. We provide a one-year warranty for all products. Our product is easy to install and charge. We have helped a lot of people suffering from motion sickness. They felt absolutely no nausea and enjoy life now.

Brand	HeadaTerm
Non-rechargeable	The device lasts 20 minutes each time and can be used for up to 7 hours.
Principle	eTNS technology
Indications	Prevent and treat primary headache, including migraine, tension headache, cluster headache, depression and insomnia.
Certificate	FDA, CE, TGA, HC, ISO
Notice	Indications vary due to regulations. Please check with customer service and local suppliers.

Adjustable Stimulation Intensity

The intensity of the treatment will increase to the strongest level within five minutes. During this period, users can choose the appropriate intensity according to their own experience to achieve the best effect.

Compact And Easy To Carry

HeadTerm is very small and light, making it convenient not only to use at home or at the office, but also on trips and outdoor travelling.

Principle

Primary headaches, such as migraine, are transmitted by the supraorbital nerve and the supratrochlear nerve. HeadTerm introduces precise electric impulses from the user's forehead to act on these nerves and reduce the migraine signals transmitted. The device avoids any drug effects, making it appropriate a wide range of users. Every device contains 21 rounds of standard therapies, each therapy lasts 20 minutes.
