Installation Instructions of Self-adhesive cork pads for glass:

Please place the cork pads on the edge of the glass, one pad per 30cm or 40cm, and totally 8 pads on the area of 1 square meter; more pads must be put on the middle of glass for the area more than 1 square meter and the actual quantity should be subject to the reality.

Principle: the smaller the glass area is, the less the pads need.

For the same area glass, the more the cork pads are used, the better the protection effect is.

Please use the approximate cord pads quantity according to the real situation.
