

### Fully Automatic Paper Bowl Machine

This Fully Automatic Paper Bowl Machine Adopt stepless frequency conversion speed regulation (production speed can be easily adjusted), Photoelectric monitoring: automatic fault alarm and counting. Design and manufacture molds according to customer's requirements, and can produce paper bowl jackets of various specifications and sizes by exchanging the molds, realizing one machine with multiple products. Automatic paper feeding, gluing, automatic bonding, inner cup inhalation, seamless bonding

between the coat and inner cup, and out of the bowl.

Model: YB-W35

### Yongbo Machinery Fully Automatic Paper Bowl Machine Introduction

This Yongbo Machinery **Fully Automatic Paper Bowl Machine** is the new design adds a bottom heating system more than the old design which make the paper cup sealing effect is more better. This model is equipped with 10 Cup molds, which operates faster than the old 8 Cup molds. The steel plate presses the bottom paper to make the paper feeding more stably and smoothly. Two cooling fans, two fans can make the paper fan cooling faster, make the cup fan better sealing

### Yongbo Machinery Fully Automatic Paper Bowl Machine Parameter (Specification)

Model	YB-W35 Automatic Paper Bowl Forming Machine
Cup Size	20-50oz (Mould Can Be Changed As The Requirements Of Clients)
Raw Materials	Single / Double PE Coated Paper
Paper Weight	140-350gsm
Speed	60-75pcs/Min
Power Source	380V 50Hz
Total Power	4.8KW
Weight	2400KG
Dimension	2450 X 1300 X 1750mm;
L*W*H	
Air Pressure Requirements	0.6Mpa, Output : 0.6 M3/Minute
Machine Should Work With The Air Compressor	

## Yongbo Machinery Fully Automatic Paper Bowl Machine Feature And Application

### This **Fully Automatic Paper Bowl Machine** Reliability:

YB-W35 intelligent medium-speed paper bowl forming machine has the advantages of high performance, high efficiency and high quality;

The integral steel body and the auto oil lubrication system ensure long-term normal and stable operation of the machine

### This **Fully Automatic Paper Bowl Machine** Energy efficient:

The advanced high-precision open cam drive and gear drive make it more accurate and stable; Servo tracking bottom paper feeding locks the size of the bottom paper, which effectively saves raw materials;

### This **Fully Automatic Paper Bowl Machine** Humanizing:

The man-machine interface PLC system controls the long-term stable operation of the whole machine;

### Yongbo Machinery **Fully Automatic Paper Bowl Machine** After-sale service:

After the equipment leaves the factory, the company sends professional technicians to install and debug the equipment to produce qualified products that customers are satisfied with. One year free warranty and lifetime technical support.

Later service: The company has set up professional and technical personnel to tour all over the country, visit customers regularly, and discuss with customers to solve new problems in use in a timely manner. And cooperate with customers to formulate sales

plans. It is our diligent pursuit to let customers buy with confidence and use them comfortably.
