What's it?

With our discharger to get your car battery power out to support other electronic product, such as cellphone, computer or barbecue grill etc...Make you NO worries about the no-power journey, get much safer and happier journey.

Excellent Weather Resistance

It is more resistant to cold and high temperature, even if used in $-25^{\circ}\text{C} \sim +55^{\circ}\text{C}$ outdoor environment, it can still be used normally

-25°C

$+55^{\circ}\text{C}$

IP66 Waterproof Portable EV Charger

IP66 ensure the perfect work outdoors in any
environment including rain and snow.

PRODUCT PARAMETERS

Waterproof Level: IP66
Working Current: 15Amp
Maximum Working Power: 3.75KW
Service Life: >10,000Time
Insulation Resistance: >1000MQ

Operating Voltage: 110-250V
Operating Temperature: -25°C~+55°
Insulator Flammability: UL94 VO
Withstand Voltage: 2000V
Form of Electricity: 1 Phase
