Product Description

This newest Double Flange Steel Tube Skeleton Wire Reel is our factory's latest design . This range of extremely rugged 'skeleton' cable drums is particularly suited to life on the road but also at home in a TV or film studio. They are constructed from heavy-duty, welded, steel tubing, on to which an overall passivated zinc plate is applied.

ONEREEL® Double Flange Steel Tube Skeleton Wire Reel Feature and Application

This is a traditional skeletal design, with space within the hub for a short length from the inner end of the cable, which may be pulled out and connected to the tailgate or wall box without the need to unreel the cable completely. A traditional two-flange type is suitable for triaxle camera cable, multicore audio cable and heavy-duty power cables.

ONEREEL Double Flange Steel Tube Skeleton Wire Reel Details

Double Flange Steel Tube Skeleton Wire Reel is a traditional skeletal design, it is suitable for trial camera cable, multicore audio cable and heavy-duty power cables. Lightweight and easy to carry.
