

ONEREEL®

Plastic Bobbin for 3D Printer Filament

ONEREEL® is the top Plastic Bobbin for 3D Printer Filament manufacturer and supplier in China. We have been deeply involved in the reel industry for many years. When you need the strength and durability of a steel reel, ONEREEL has the product for you.

Whether you need a tubular reel for lightweight shipping of pipe or conduit, a custom-designed process reel for take-up and take-off solutions in heavy-duty processing industries, or a double layer spool reusable design for wire and cable applications, our line of steel reels is tailored to satisfy your unique needs.

Product Description

This ONEREEL® Plastic Bobbin for 3D Printer Filament is a high-quality product. ONEREEL Plastic Bobbin for 3D Printer Filament is made of High-grade PLA. PLA (Polylactic acid) is thermoplastic aliphatic polyester made of renewable resources like corn or starch. Its extrusion-temperature is much lower than ABS, and most often doesn't require a heated bed. PLA is a material that reduces the chance of the separate layers of your print to split.

ONEREEL® Plastic Bobbin for 3D Printer Filament Parameter (Specification)

Name	3d printer filament spool
Diameter	200mm
Inner width	57mm
Outer width	65mm
Barrel diameter	90mm

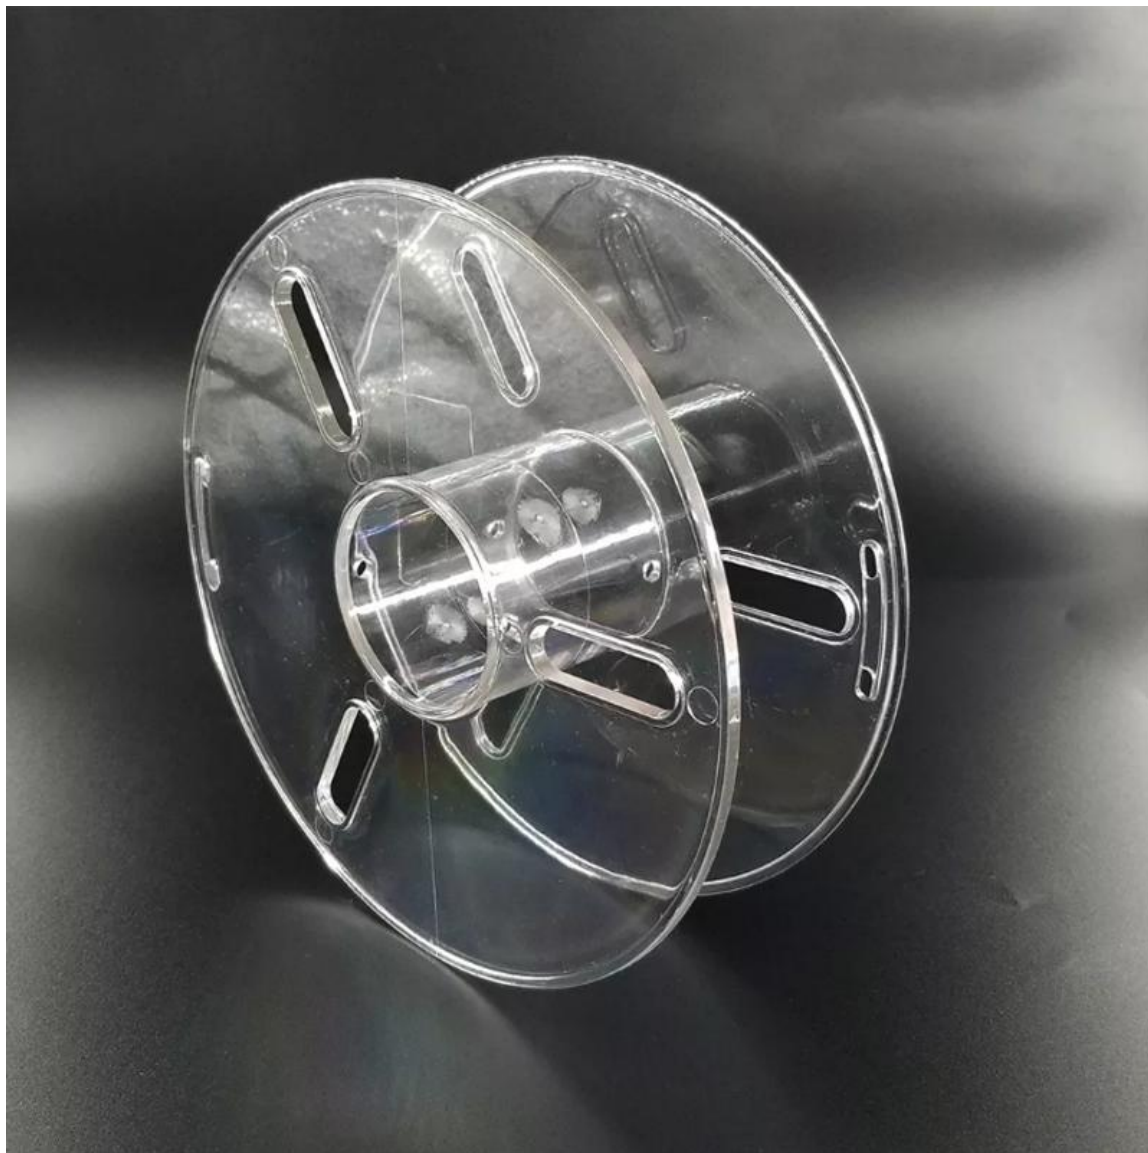

Bore diameter	53mm
Weight	235g
Rated load	1KG
Material	ABS
Colour	More than 1000 Pieces can be customized

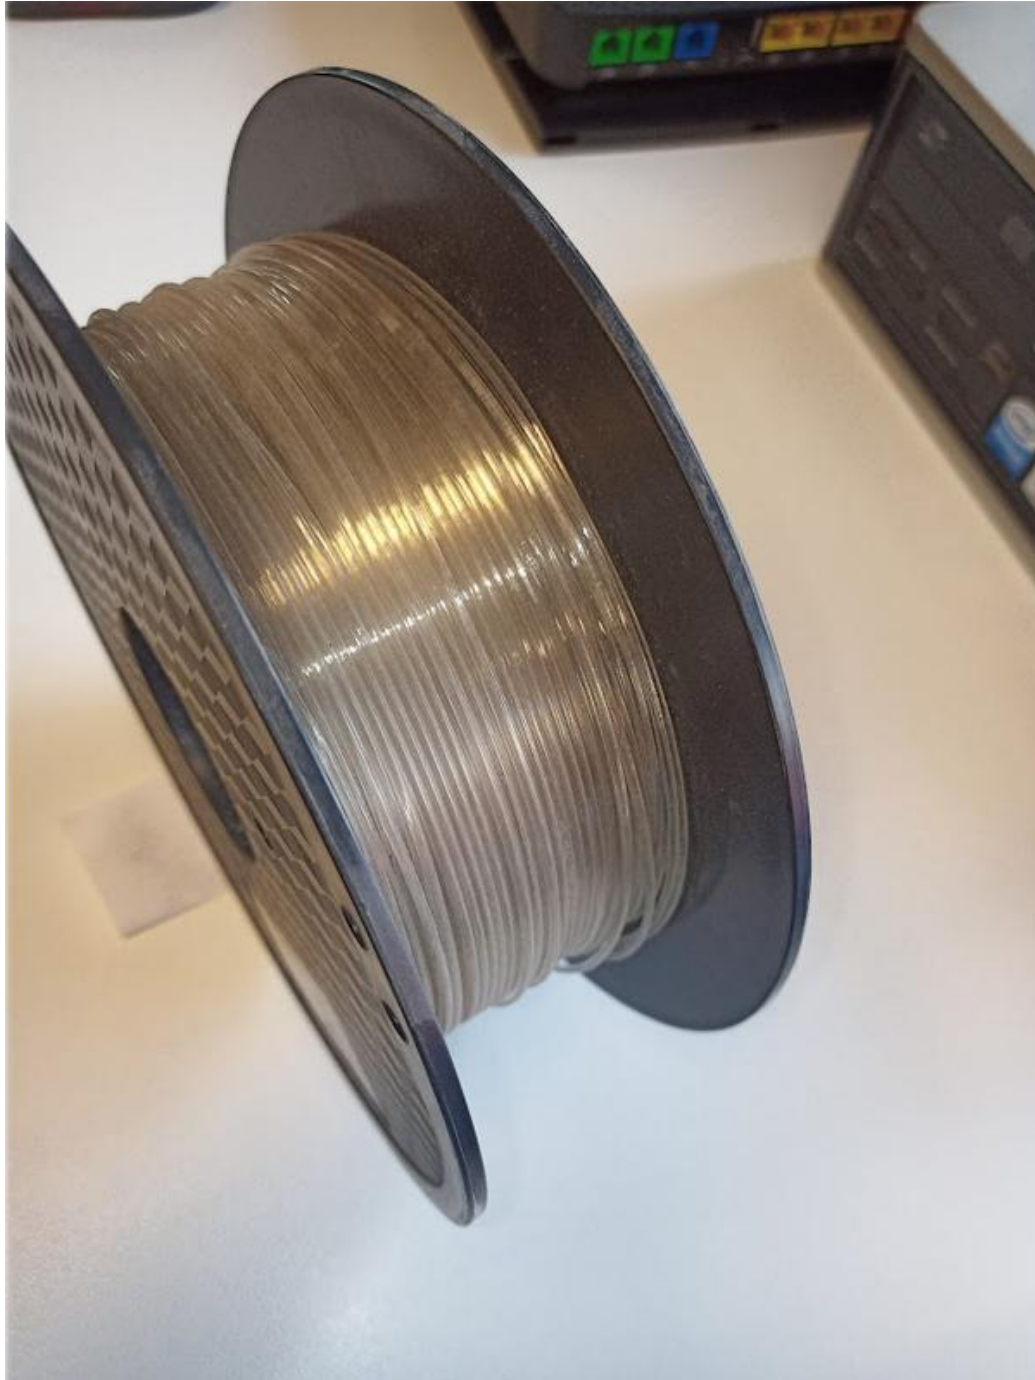

ONEREEL Plastic Bobbin for 3D Printer Filament Feature and Application

- 1, Environmental, biodegradable material.
- 2, Strong smoothness and glossiness.
- 3, No smell.
- 4, Excellent fluidity, no wrapping issues for printing big area object, anti-bending.

ONEREEL Plastic Bobbin for 3D Printer Filament Details

- 1, DURABLE FOR STORAGE: Apply new damp proof and anti-crack formula, lengthen storage time after sealing off. We hope you can make full use of each inch of the filament.
- 2, 100% PURE VIRGIN RAW MATERIAL: All raw materials are imported from abroad, no foreign objects, no recycled material, we promise that all materials are of good quality.
- 3, ECO-FRIENDLY: PLA is made from lactic acid, which is produced via starch fermentation during corn (or other plants) wet milling, it's a biodegradable and eco-friendly material.

**FAQ**

What is your products standardization?

our products strictly comply with ISO9001 and CE standards

Can you can design the spool according to our size?

Yes, we have a professional team of engineers who can complete the manufacture of the spool you provid

Ningbo Onereel Machine Co., Ltd.

Tel:+86-574-86887181

Email:sales@onereel.cn

How many years have your company made this kind of spool?
we have been making spools for ten years

Are you a trading company or a manufacturer?
we are a manufacturer of spool technology and design

How long is your delivery time?
we will deliver the order as soon as we receive it
