

ONEREEL®

Tricot Bobbin Textile Aluminum Forged Beam

ONEREEL® is the top Tricot Bobbin Textile Aluminum Forged Beam manufacturer and supplier in China.

ONEREEL® is a professional manufacturer of various series of warp knitting machines, warping machines, double needle beds, flower knitting machines, multi-axial, and other aluminum pan heads with strong technical force and advanced manufacturing level. In order to guarantee the stability and high quality of the products, we have surveyors and engineers. We insist on providing our customers with innovative, high-quality products at competitive prices and timely delivery. With good feedback, we have been trying our best to meet our customers' reasonable requirements and provide professional services.

Product Description

This Tricot Bobbin Textile Aluminum Forged Beam is a high-quality product.

ONEREEL® Tricot Bobbin Textile Aluminum Forged Beam is a packaging tricot beam produced by our factory. We are a manufacturer of aluminum beams for warp knitting machines. Our company has developed for more than ten years. The product quality is high and guaranteed. We are a professional supplier and manufacturer of warp knitted aluminum beams. Trust our company, you can get high-quality cooperation and service. We can provide the most competitive product prices in the industry.

ONEREEL® Tricot Bobbin Textile Aluminum Forged Beam Parameter (Specification)

TRICOT BEAM								
Item	specification	SIZE(mm)						weight

ONEREEL Tricot Bobbin Textile Aluminum Forged Beam Feature and Application

Ningbo Onereel Machine Co., Ltd.

Tel: +86-574-86887181

Email: sales@onereel.cn

1. Flange and barrel: made of high-strength aluminum alloy, forged by low pressure centrifugal forging and heat treatment, with the advantages of high strength and good metal extensibility;
2. Welding: inert gas argon is used for high-precision welding by robot automatic welding hand, which has the advantages of high tensile strength, no fracture and no deformation;
3. Surface treatment: hard oxidation treatment, forming an oxide film with thickness $\geq 66\mu\text{m}$, which has the advantages of anti-corrosion, abrasion prevention and scratch prevention;
4. Inspection: Through dynamic balance test, ensure that the pan head is concentric and does not shake during warping.

ONEREEL Tricot Bobbin Textile Aluminum Forged Beam Details

Good compatibility with flat knitting machines due to dynamic balancing function

Maintains good performance and original shape even with high-speed rotation.

Treated by hard anodized coating, corrosion and surface scratching completely

Blocked. Maintains durability and precision even after years of use.

**FAQ**

What is your products standardization?

our products strictly comply with ISO9001 and CE standards

Can you can design the spool according to our size?

Yes, we have a professional team of engineers who can complete the manufacture of the spool you provid

How many years have your company made this kind of spool?

we have been making spools for ten years

Are you a trading company or a manufacturer?

Ningbo Onereel Machine Co., Ltd.

Tel: +86-574-86887181

Email: sales@onereel.cn

ONEREEL®

www.cable-spool.com

we are a manufacturer of spool technology and design

How long is your delivery time?

we will deliver the order as soon as we receive it
