

## Warp Knitting Machine Casted Beam

ONEREEL® is the top Warp Knitting Machine Casted Beam manufacturer and supplier in China. With more than 50 sets of advanced equipment, such as precision digital machine tools, punching machines, laser engraving machines, anodizing equipment, etc. The double warp beam mainly weaves two groups of fabrics with large difference in warp let off, which can be woven into seersucker fabrics, folding roller shutter products, and products with large difference in equipment before raw materials can also be prepared using double warp looms, such as a sizing warp and a twisting warp. The sizing warp is completed on the sizing machine, and the twisting warp is completed on the slitting warping machine. It can also weave products that are easily intertwined on one beam due to high warp density.

### Product Description

This Warp Knitting Machine Casted Beam is a high-quality product.

ONEREEL® Warp Knitting Machine Casted Beam. ONEREEL is one of the finest knitting machine warp beam manufacturer that are suitable for spun and filament yarn. The shaft core of ONEREEL Warp Knitting Machine Casted Beam has high tensile strength and elongation. Generally, it is made of seamless steel pipe with a wall thickness of 6~10mm, and its surface is treated with antirust paint or galvanized passivation; The disc is made of high-strength aluminum alloy and its surface is anodized.

### ONEREEL® Warp Knitting Machine Casted Beam Parameter (Specification)

Place of Origin:	Ningbo, China (Mainland)	Color:	Random
Brand Name:	ONEREEL	Material:	Metal
Export Market:	Global	Package:	Negotiated
Certification:	ISO9001	Quality:	Guaranteed
Product name		Warp Knitting Beam	

Ningbo Onereel Machine Co., Ltd.

Tel: +86-574-86887181

Email: sales@onereel.cn

Beam Size	30"X21", 30 inches X 21 inches
Material	Aluminum Alloy
Weight	80kgs, 85kgs, 95kgs
Suitable Yarn	Polyester, nylon, cotton, mono and multi filament yarn

**ONEREEL Warp Knitting Machine Casted Beam Feature and Application**

1. Warp shaft disc material ZL104, pressure casting aging treatment, surface oxidation treatment, Dutong black yarn phenomenon
2. Shaft tube material: high-quality seamless steel pipe, with galvanized or blackened surface
3. Gear brake disc material: nodular cast iron.

**ONEREEL Warp Knitting Machine Casted Beam Details**

ONEREEL Warp Knitting Machine Casted Beam is widely used in the Warp knitting and technical textiles

Flange and barrel: high-strength aluminum alloy material, forged by low-pressure centrifugal, and heat-treated, so it has the best rigidity and durability;

Welding: High-precision welding is carried out by means of a robotic automatic welding method using a metal inert gas;

Since the function of the dynamic balance can maintain good compatibility with the textile machine even if it is rotated at a high degree;

After hard machine coating, it completely prevents corrosion and surface scratches, and maintains its durability and precision even after several years of use;

Long warrantee life time.

## FAQ

**Ningbo Onereel Machine Co., Ltd.**

**Tel: +86-574-86887181**

**Email: [sales@onereel.cn](mailto:sales@onereel.cn)**

What is your products standardization?

our products strictly comply with ISO9001 and CE standards

Can you can design the spool according to our size?

Yes, we have a professional team of engineers who can complete the manufacture of the spool you provid

How many years have your company made this kind of spool?

we have been making spools for ten years

Are you a trading company or a manufacturer?

we are a manufacturer of spool technology and design

How long is your delivery time?

we will deliver the order as soon as we receive it
