

200w Thin Light Folding Solar Panel

ISOLA 200w Thin Light Folding Solar Panel With Monocrystalline solar cells, you will find that you can efficiently harness solar power, and you will have a solar panel system that can last for a lifetime. Which means you are getting a great value for your initial investment. And you will find a lot of benefits of using one for your camping trip. It's important to think about whether you need power when camping and we understand that it

can be quite confusing with all the options now available. We suggest making a list of the appliances or gadgets that you will use during your camping trip and take note of the power required to run each of those gadgets or appliances. Then figure out how long you would use those gadgets throughout your camping trip. Once you have all that figured out, it is just a matter of getting the total wattage you need to power everything up and choosing a solar panel with enough power output to accommodate your needs.

Product Description

ISOLA **200w Thin Light Folding Solar Panel** Using A-level monocrystalline silicon cells, the conversion rate is as high as 21%. Japan imported ETFE lamination process, waterproof, dustproof and damage-proof; This **200w Thin Light Folding Solar Panel** with Adjustable kickstand and storage bag. A retractable adjustment bracket is added on the back to flexibly adjust the angle of the board surface and absorb sunlight. Using high temperature, flame-retardant and corrosion-resistant materials, light transmittance of more than 95%

Product Parameter (Specification) of 200w Thin Light Folding Solar Panel

MODEL	Product Specifications	
YH200W-18M-FD	Peak Power(Pmax)	200W
	Maximum Power Voltage(Vmp)	18.5V
	Maximum Power Current(Imp)	10.81A
	Open Circuit Voltage(Voc)	21.89V
	Short Circuit Current(Isc)	11.44A
	Cell:	182*72mm
	Nominal Operating Cell Temperature (NOCT)	45±2°C
	Maximum System Voltage(V)	1500V

	Maximum Series Fuse Rating(A)	15A
	Weight	5.79kg
	Dimensions	410*495*40mm

ISOLA 200w Thin Light Folding Solar Panel Feature And Application

200w Thin Light Folding Solar Panel is a silent source of power so you and your camping neighbours can continue to enjoy the tranquility while running your appliances. Saves you money as it's free power from the sun, there are also generally no maintenance costs and you can avoid fees for powered sites.

Using solar power can give you greater flexibility when camping as you can camp wherever you want without sacrificing using your appliances. Solar panels are easy to use and a convenient solution to power. They are available in portable kits so you can take them camping with you and set them up easily.

Warranty:

- 1) 10 years limited product warranty
- 2) 15 years at 90% of the minimal rated power output
- 3) 30 years at 80% of the minimal rated power output

ABC 300W LED street light Details

Applied scope:

200w Thin Light Folding Solar Panel can be mounted to your roof rack on top of your caravan, camper trailer, 4WD or boat or even positioned on the ground.
