Bean Sprout Barrel Turning Machine

Chongcheng Machinery is a leading enterprise of Bean sprout barrel turning machine and other bean sprout machine equipment production. Our bean sprout barrel turning machine saves manpower, improves efficiency, and avoids damage to sprouts in the process of collection, and improves the overall quality of sprouts. We look forward to being your long-term partner in China.

With years of experience in production Chongcheng Machinery Bean sprout barrel turning machine, Linq Chongcheng Machinery Factory can supply a wide range of bean sprout machine. High quality Bean sprout barrel turning machine can meet many applications, if you need, please get our online timely service about it.

Product specifications:

Model: custom

Material: 304 stainless steel and carbon steel

Product FEATURES AND APPLICATIONS:

Features: Bean sprout barrel turning machine is to turn over the stainless steel bean sprout bucket containing about 1 ton through the hydraulic system, and the bean sprouts in the bucket are turned over to the cleaning machine for cleaning at more than 180 degrees.

Product usage: Suitable for all kinds of bean sprouts production process

Bean sprout barrel turning machine Equipment principle: Efficient

Through the hydraulic system, the stainless steel bucket containing about 1 ton of bean sprouts is turned over, and the bean sprouts in the bucket are turned over to the cleaning machine at more than 180 degrees for cleaning

Product details introduction:

www.lqccmilling.com

Bean sprout barrel turning machine is to turn over the stainless steel bean sprout bucket containing about 1 ton through the hydraulic system, and turn the bean sprouts in the bucket to the cleaning machine for cleaning after more than 180 degrees. Bean sprout barrel turning machine saves manpower and improves efficiency. The whole quality of bean sprouts was improved by avoiding damage to the sprouts in the process of gathering.
